

Introduction

Enjoy Shopify 3-day free trial. Then get your first month for \$1. [Try Now](#)

Welcome to **Grocia - Grocery & Supermarket Responsive Shopify Theme**.

HELLO ! FIRST OF ALL WE WOULD LIKE TO THANK YOU SO MUCH FOR CHOOSING OUR THEME!

Here are some basics on installing, configuring and customizing theme. If you have any questions that are beyond the scope of this help file, please feel free to contact us via email : hello@shopilaunch.com

We truly appreciate and really hope that you'll enjoy our theme!

Best Regards!

[Private Offer] XO Builder

A promotional banner for XO Builder. The background is a solid green color. In the top left corner is the XO Builder logo, which consists of four white squares arranged in a 2x2 grid. Below the logo, the text "Get 6 months FREE of XO Builder" is written in white, followed by "Then 30% lifetime discount" in a larger white font. Below this text, in a smaller white font, it says "Create any section, page for your store For all ShopiLaunch's themes". In the bottom right corner, there is a bright green rounded rectangular button with the text "Get It Free" and a right-pointing arrow.

Exclusively for ShopiLaunch users, when you bought any theme from us, you can get **XO Builder - Theme Partner Plan** for ZERO and start making beautiful, high-converting store pages today:

- FREE 100% XO Builder any plan for 6 months (save upto \$155)
- Build ANY Shopify pages: Landing page, Sale Funnel page, Lead pages, & other custom pages tailored for your marketing campaigns.

- Create advanced sections & add to your theme with ease
- 200+ sections templates
- 50+ pages templates
- Build pages with a love drag-drop editor, no coding required

How to claim offer. [Install XO Builder HERE](#) . Then open chatbox icon in **XO Builder** dashboard and leave a message with subject "**Theme name+XO Builder**" to upgrade for free

Download Grocia from Themeforest

To download Grocia from Themeforest, please follow these steps:

💡 STEP 1:

Select **Theme** item from your Downloads list, Click to **Download** button => **All files and documentation**

💡 STEP 2:

Login to [Themeforest](#) => Click to Profile icon and select Downloads

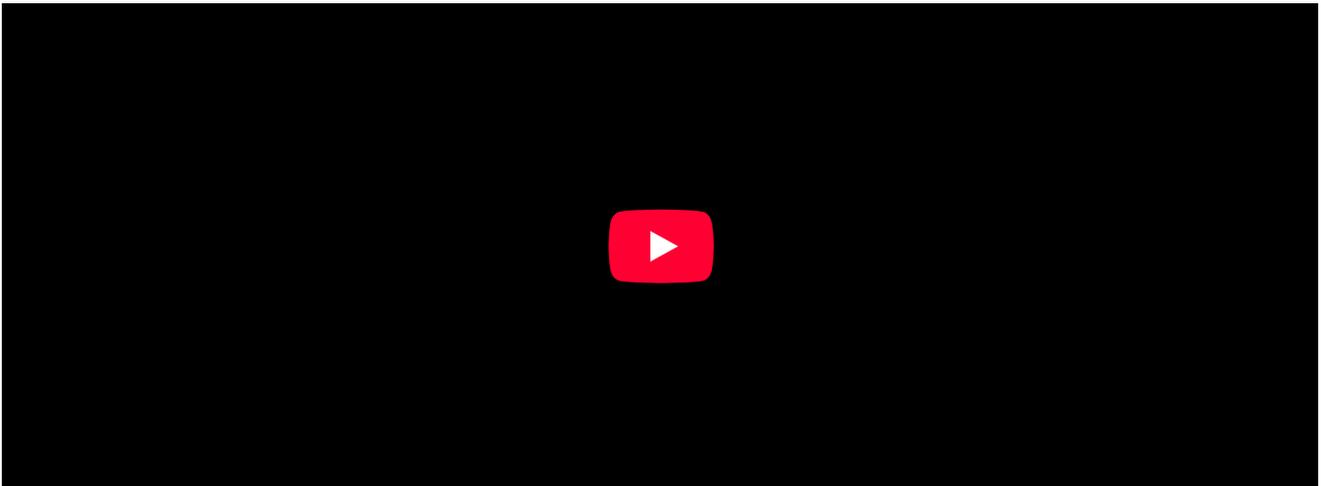

Install Grocia

Install Grocia from Themeforest

To install Grocia from Themeforest, please follow these steps:

IMPORTANT

Please make sure that **you have extracted** the theme package that you downloaded on Themeforest before uploading it to your store. Otherwise, you will get the issue: **zip does not contain a valid theme: missing template "layout/theme.liquid"**.

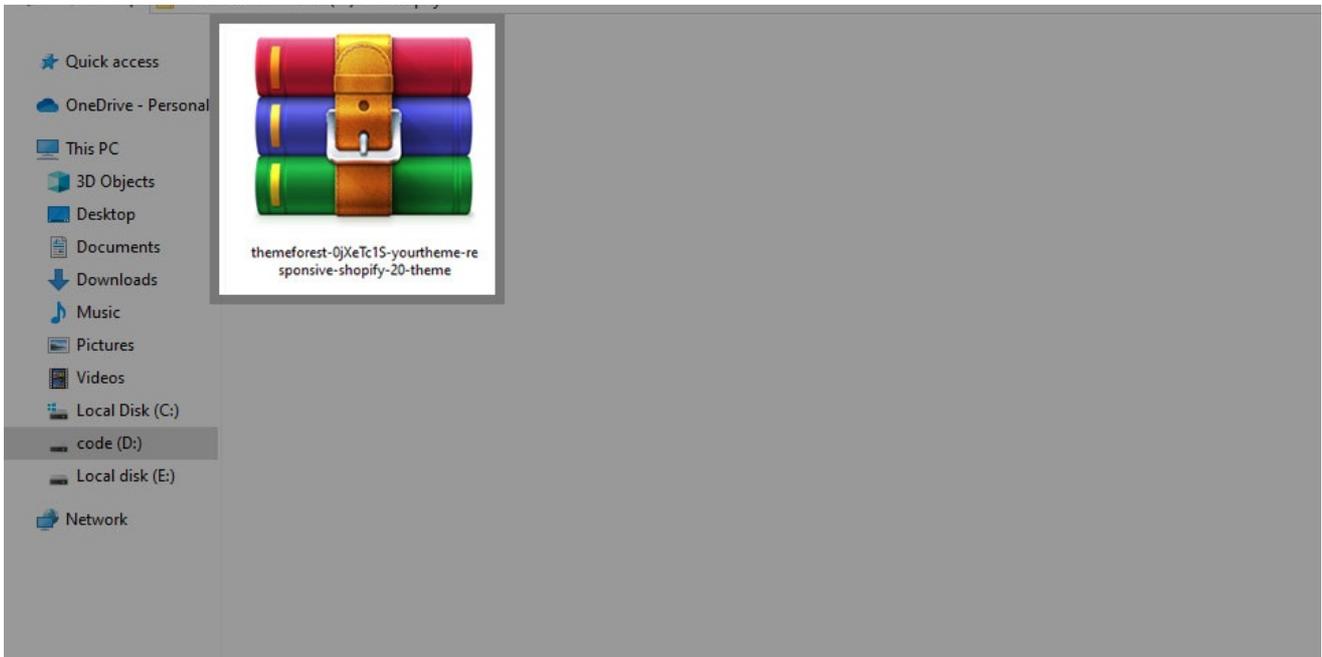

1. Unzip Theme package

After download your theme from [Themeforest.net](https://themeforest.net), please extract this file by the following steps.

STEP 1:

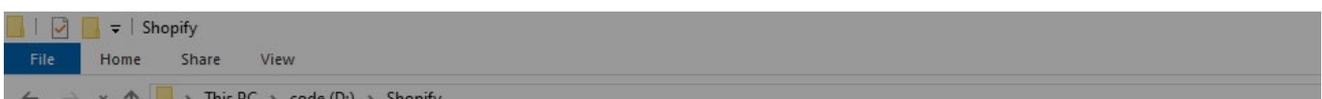

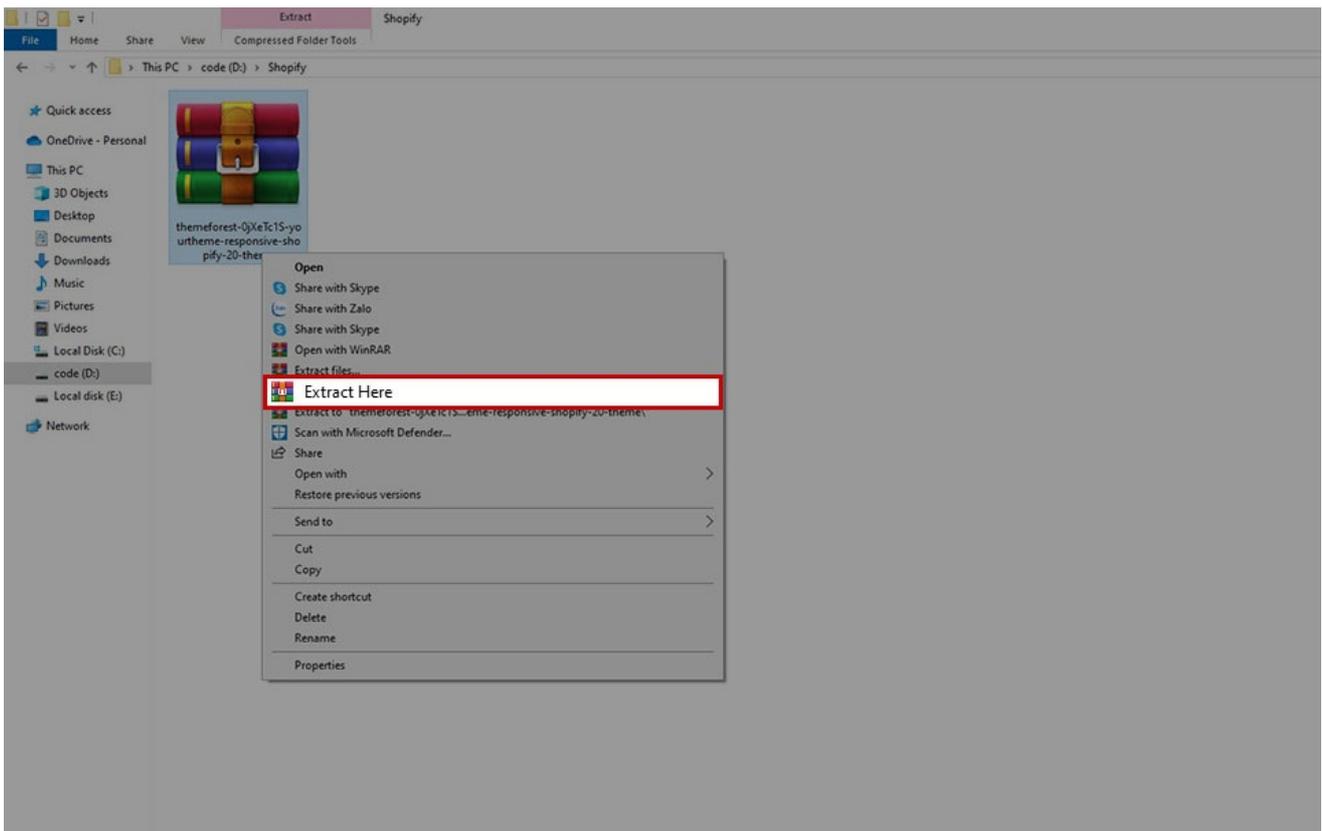

Right click to the theme zip file you have just downloaded

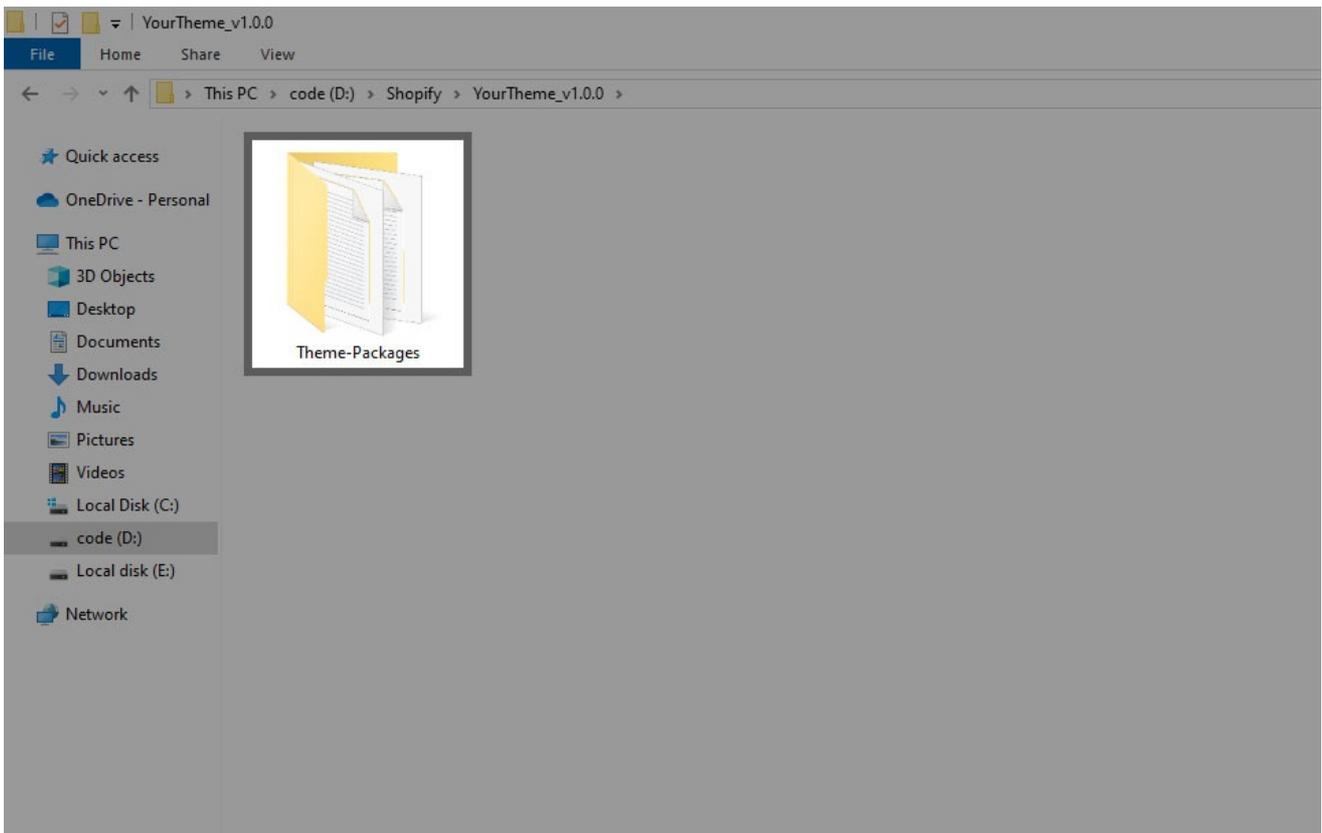

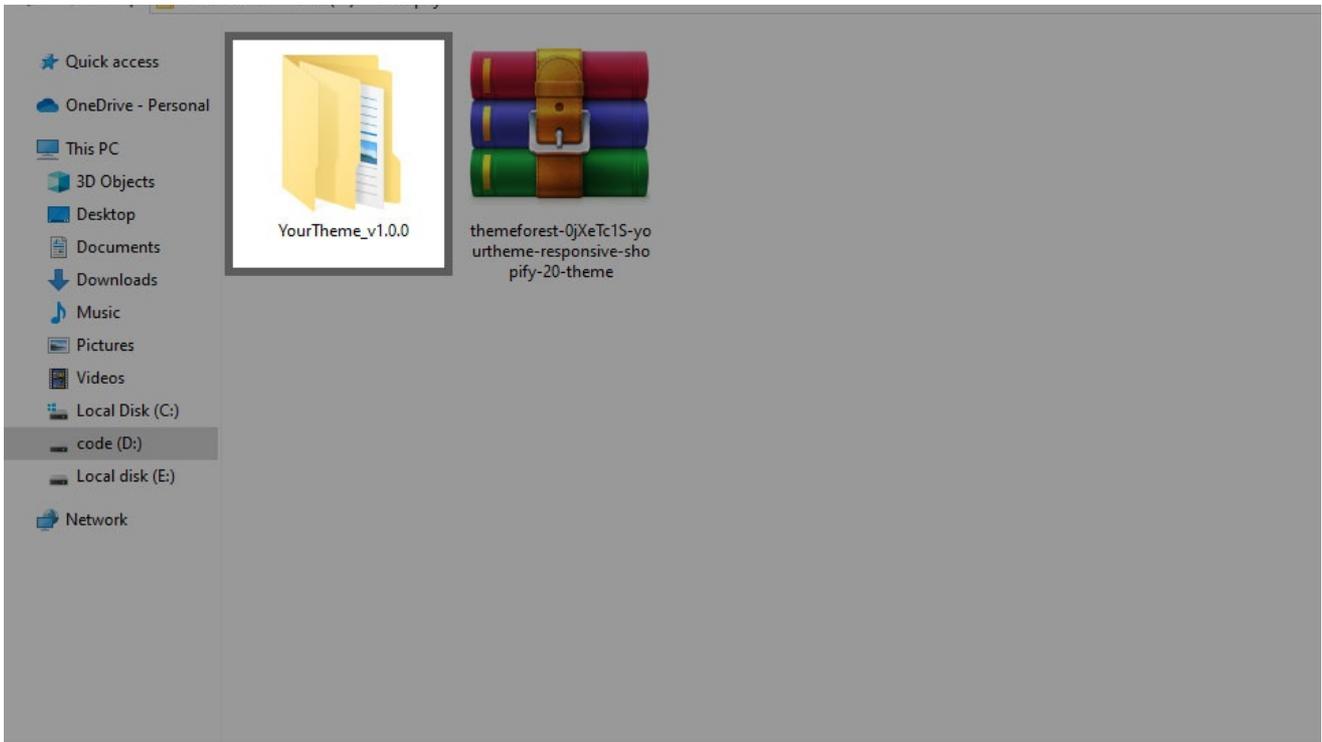

STEP 2:

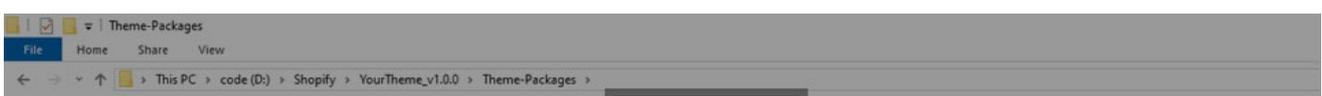

Unzip this file and open it

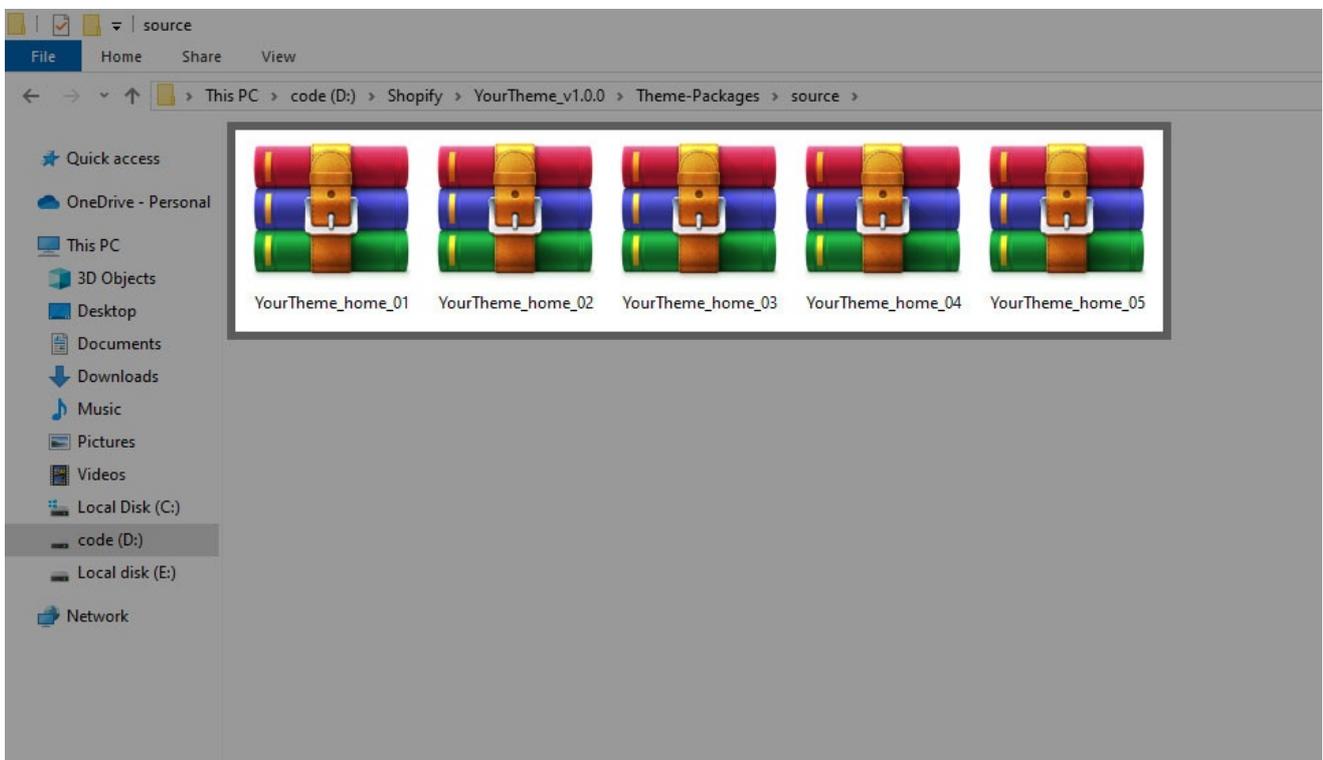

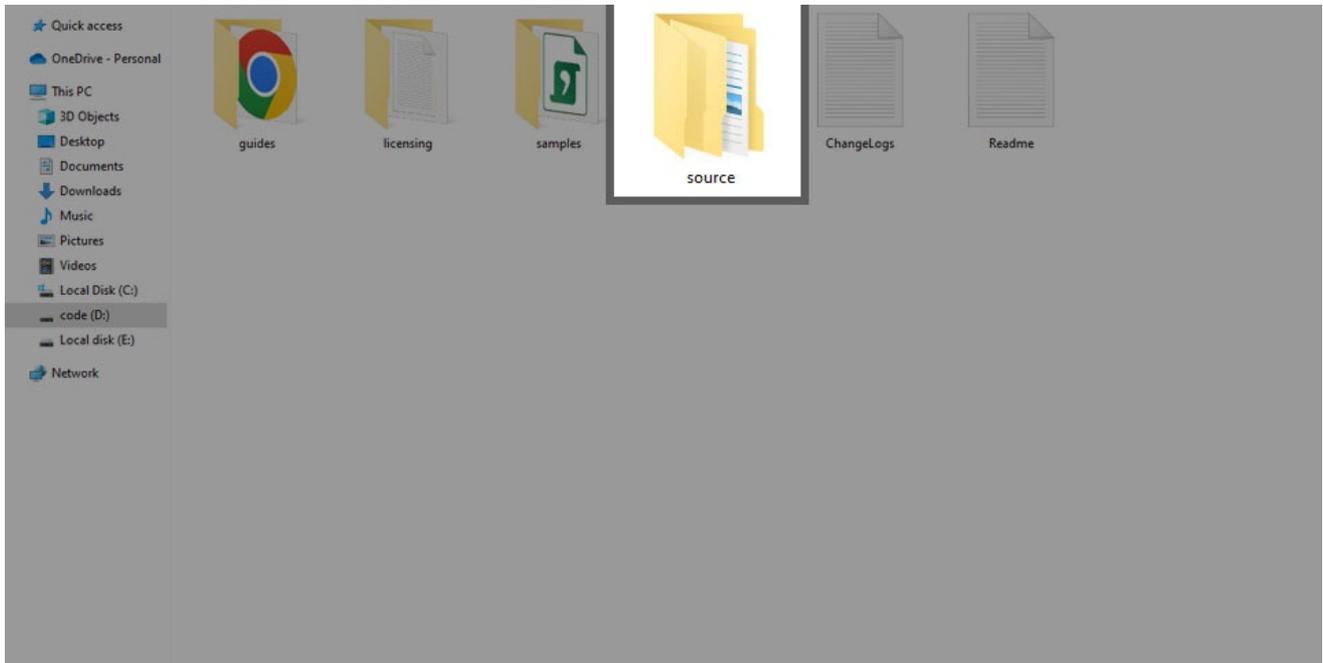

💡 STEP 3:

All the themes file need to be uploaded to Shopify store are stored on themes folder.

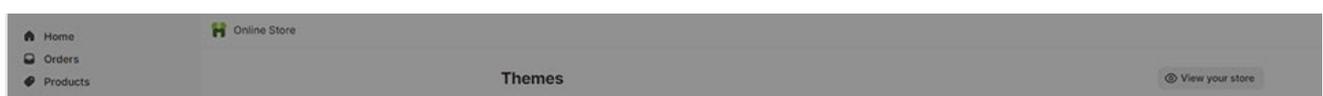

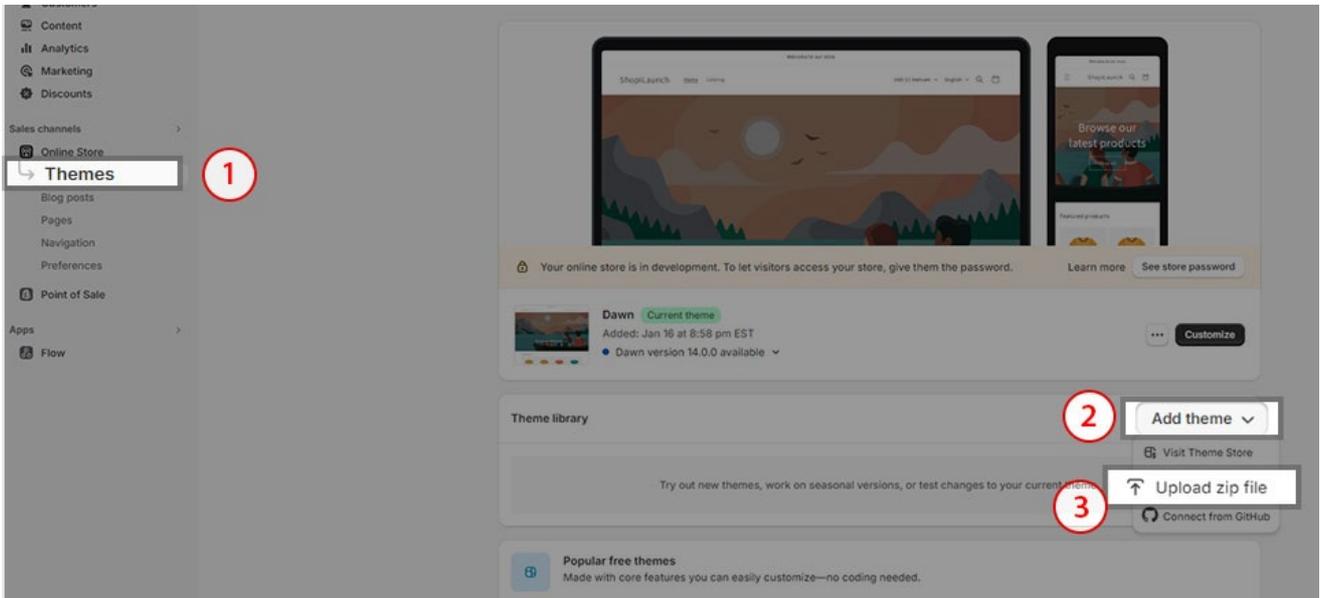

2. Install Theme to your store

💡 STEP 1:

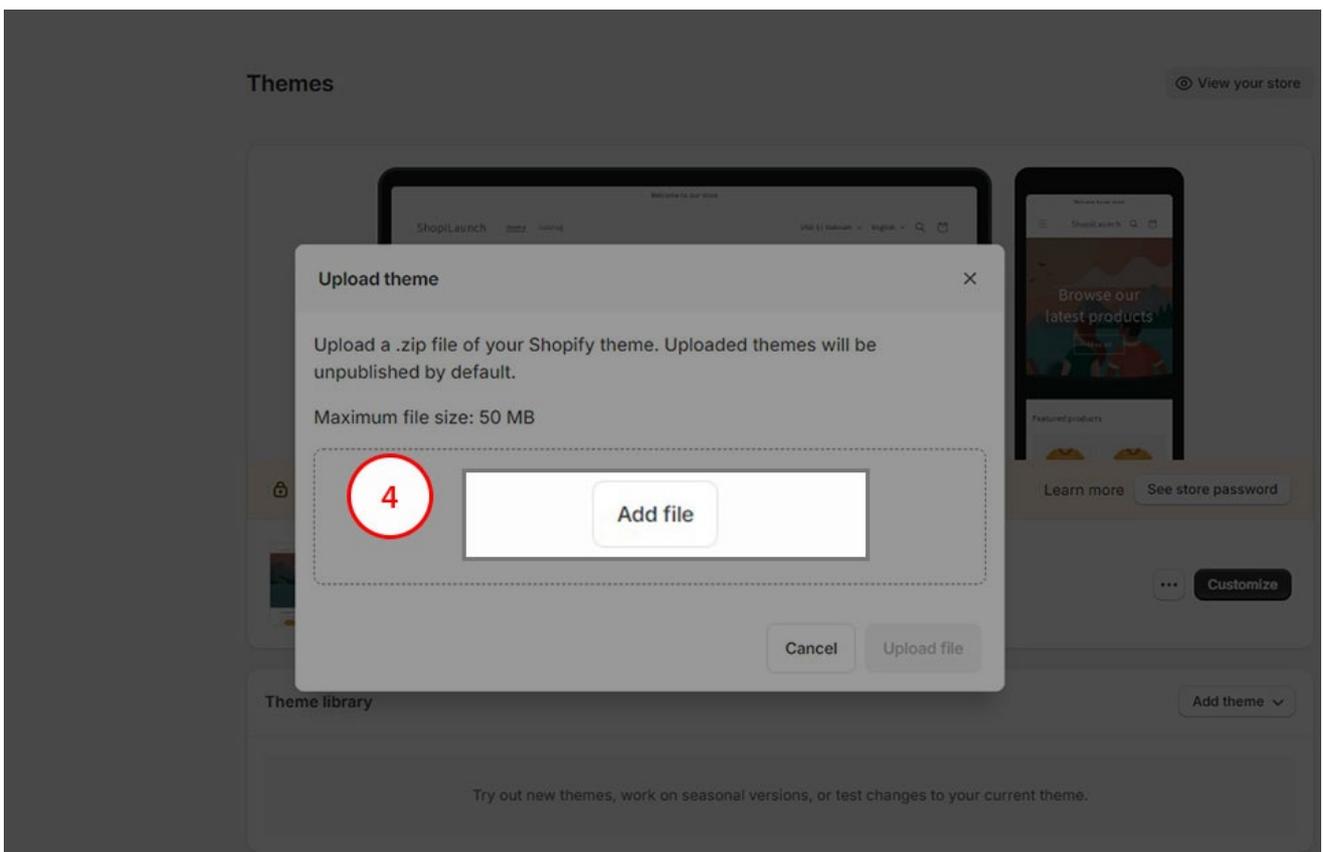

From your admin, click to **Online store** ==> **Themes** ==> **Add theme** ==> **Upload zip file**

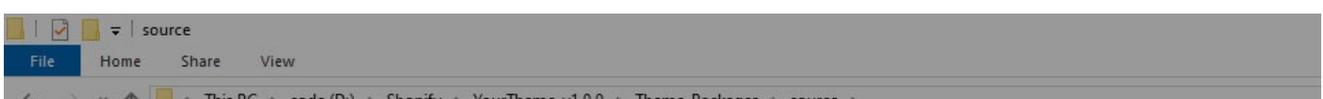

STEP 2:

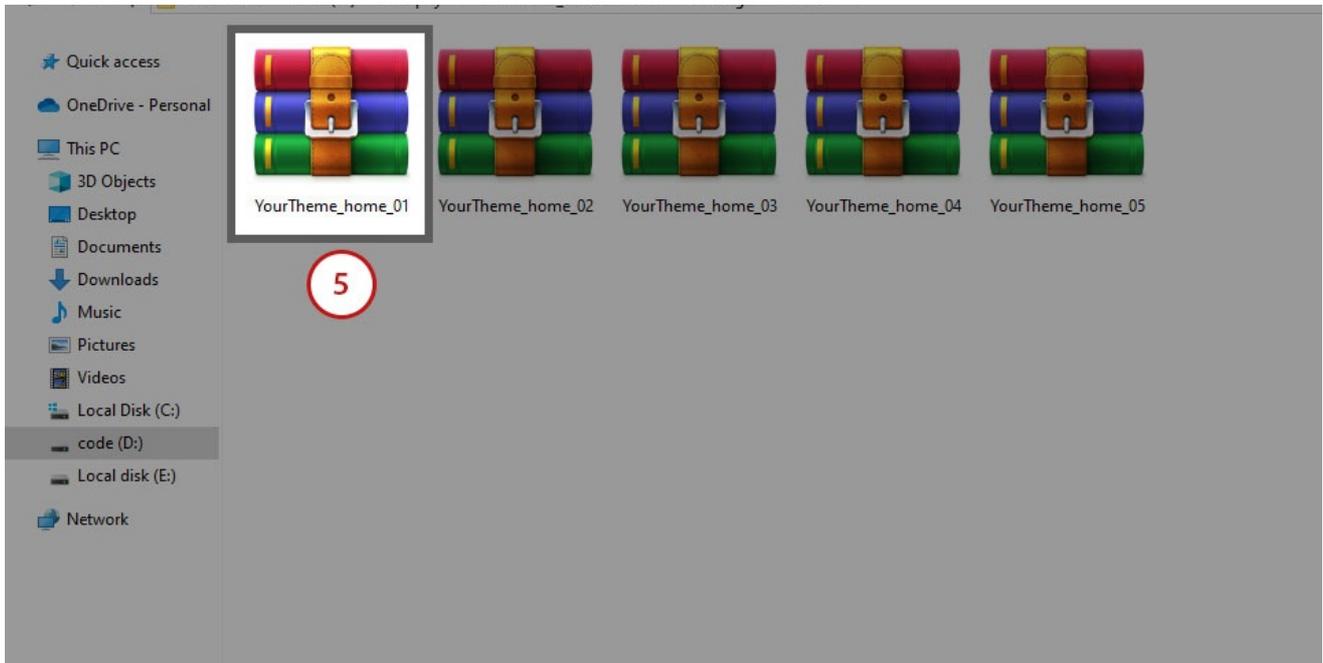

Click to **Add file**

STEP 3:

Select theme zip file and click to **Upload file**

! INFO

According to Shopify, after installing Grocia, you will get a theme with placeholder images. You can upload your own images to decorate your store base on Grocia layout.

i NOTE

Note: There are some default pages and metafields that need to be imported. Please follow [Import Pages](#) and [Import Metafields](#) directions before using your theme.

The screenshot shows the Shopify admin interface for adding a product metafield definition. On the left is a sidebar with navigation options: Store details, Plan, Billing, Users and permissions, Payments, Checkout, Customer accounts, Shipping and delivery, Taxes and duties, Locations, Gift cards, Markets, Apps and sales channels, Domains, Customer events, Brand, Notifications, Custom data (highlighted with a red box), and Languages. A red arrow points from the 'Custom data' menu item to the main content area. The main content area is titled 'Add product metafield definition' and includes a 'Definition pinned' button. The form contains the following fields: 'Name' (empty), 'Namespace and key' (containing 'custom.'), and 'Description' (empty, with a 0/100 character count). Below these fields is a 'Select type' button. An 'Options' section is visible below, showing 'Storefronts access' with a 'Read' dropdown menu. A 'Save' button is located at the bottom right of the form.

Create Required Pages

1. How to create a new page?

Before using Grocia theme, you need to import some default pages by the following steps:

STEP

Step 1: Login to your Shopify store, go to **Online Store**

Step 2: Go to **Pages**

Step 3: Click to **Add page** and create cms pages as below:

- Contact us
- Size Guide
- FAQs
- About us

2. Create a new page with demo content

There are 3 pages that have sample content. To see demo content, please follow these guidelines below.

1. Size guide

STEP

Step 1: Create new page

- **Title:** Size Guide
- **Visibility:** Visible
- **Theme template:** Default page.

Step 2: Click to block code icon to change to Show HTML

- You need to change to Show HTML before copy template so that the content will be shown like our demo store.

Step 3: Copy sample template below and paste to Content

Recommended Apps

Grocia needs those bellow apps for some especial functions. These apps are not available in the theme package, you need to download them on **Shopify App**.

1. Geolocation

The **Geolocation** app lets you recommend the best country and language for your visitors based on their browser preferences and location. These recommendations show up on your online store as a bar or popup, and fit seamlessly with your brand. Your visitors can also change their country and language anytime with selectors, which work with any theme. The country's home currency is also surfaced in the recommendation and selectors.

- Let your visitors select their country and language.
- Give personalized recommendations based on country/region
- Automatically detect and match your online store's theme colors.
- Preview before publishing on your online store.

2. Shopify Translate & Adapt

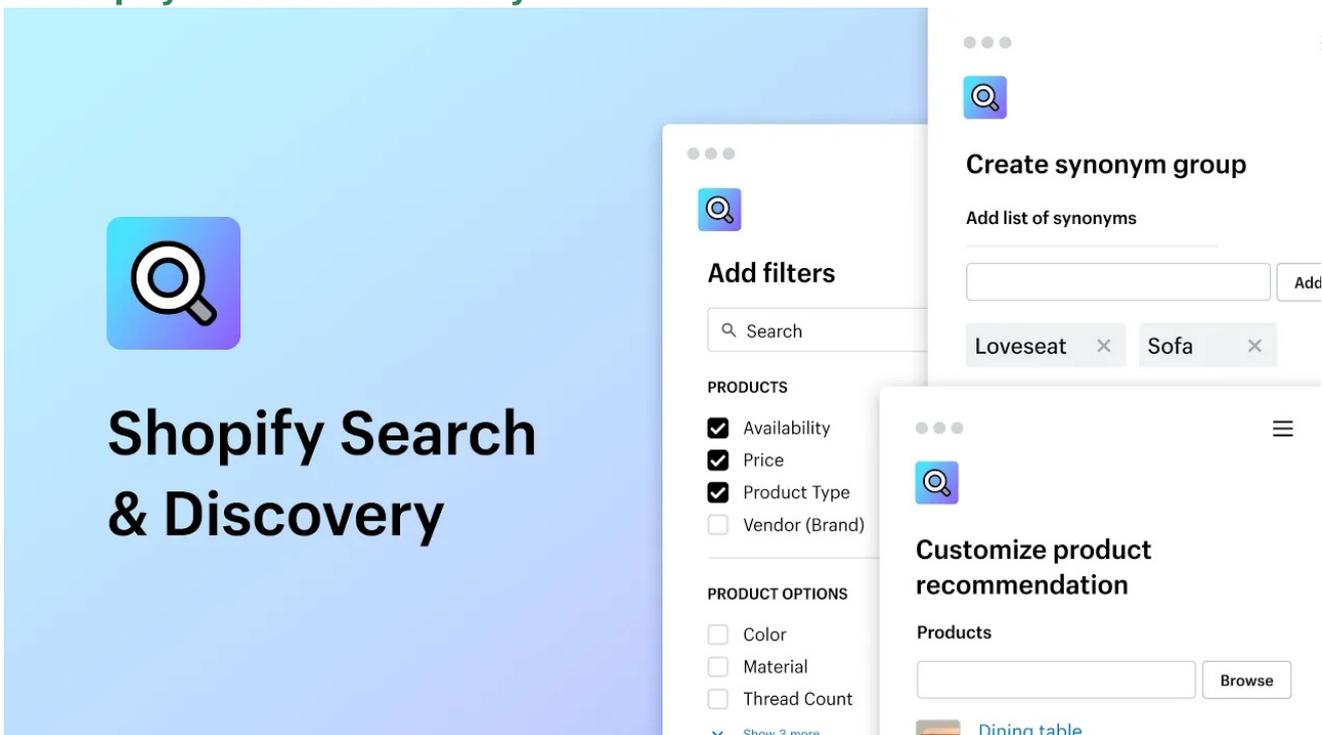

Shopify Translate & Adapt lets you auto-translate up to two languages for free, and manually add as many translations as you wish. The side-by-side editor makes it easy to compare and review your translations, and can also be used to adjust content between markets that speak the same language to ensure cultural, seasonal, and regional relevance. Manually add, edit, and review translations with the side-by-side editor.

- Auto-translate 2 languages with Google Translate (cloud.google.com/translate).
- Adapt content to reflect spelling and messaging variations between markets.
- Localize directly from the theme editor, or any resource page in your admin.
- Manage localized store content seamlessly from your Shopify admin.

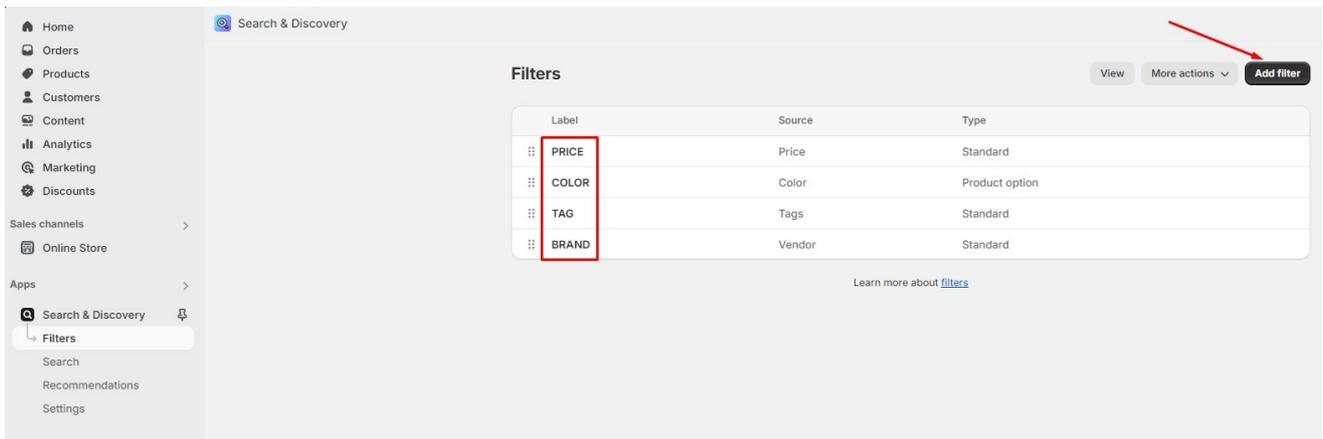

3. Shopify Search & Discovery

The [Shopify Search & Discovery](#) app gives you more control over how customers discover your products online. You can use the app to customize product search in your online store in the following ways:

- Create custom filters to let customers refine their search by multiple categories, which can surface more relevant results.
- Make and edit synonym groups, so your product descriptions match the terms customers use to search.
- Feature particular products in search results.
- Recommend related products on product detail pages to add to the recommendations that are automatically generated.

Settings Shopify Search & Discovery: Create filters: Click on *Add filter* and create filters.

4. XB Wishlist

The image displays the XB Wishlist app interface. On the left, a purple banner features a white envelope icon and the text 'Enable customer product tracking and price monitoring'. To the right, two device screens show the app's 'Wishlist' page. The desktop screen shows a table with columns for 'Product Name', 'Unit price', and 'Stock status'. The mobile screen shows a similar list with 'Add to cart' buttons. The desktop view includes a 'Share wishlist' section with social media icons and a 'To save your wishlist please login or register' prompt. The mobile view also includes a 'Share' button and a 'To save your wishlist please login or register' prompt. The desktop view shows five items in the wishlist, each with a product image, name, price, and stock status. The mobile view shows the same items in a more compact format.

Integrate wishlist easily, enhance conversions with wishlists.

XB Wishlist empowers your store by allowing customers to easily save and organize their favorite items, enhancing their shopping experience and driving repeat visits. With a user-friendly interface, this app integrates seamlessly with your store, offering a personalized shopping journey that encourages customer engagement and loyalty. Stand out by providing a feature that helps customers track what they love, making it simple for them to revisit and purchase their saved products.

- Simple setup and integration with your store.
- Customers can access their wishlist from their account.
- Tailor the wishlist button to your store's design.
- Customers can save items and share their wishlists.

Increase customer lifetime value and establish predictable revenue with [Shopify Subscriptions](#)

Give your customers the option to receive the products they love on a regular basis by offering subscriptions on your store. Whether you sell all your products as a subscription or just a few, Shopify Subscriptions makes it easy to set up and launch subscriptions, directly from Shopify admin. Your customers can conveniently pause or skip orders and update payment and shipping details right from their account.

- Offer auto-billed subscriptions (renew weekly, monthly or yearly) with discounts
- Allow your customers to cancel, skip, or pause subscriptions
- Use customizable email templates for order confirmations or payment reminders
- Access reporting to analyze your store's subscription performance
- Easily transfer existing subscription contracts to Shopify Subscriptions

Color

Change the color scheme to match the website's look and feel

You can define different color schemes in your theme settings and apply the color schemes to different sections throughout your online store with a color scheme picker. A color scheme is a set of colors. Your theme has a set of default color schemes applied that you can change at any time in the theme editor. You can add your brand colors to ensure a cohesive application of your color palette across your online store. Please follow this link for more clearly about Color Scheme: [Link](#)

To customize color in our theme please follow the steps:

💡 STEPS

1. In the theme editor (**Customize**), click **Theme settings**
2. Locate **Colors**
3. Make necessary changes
4. **Save**

Color scheme

Please follow the document to change the colors on your store.

Accent: You can change the color when hover to Blog tilte, Add to cart button, Filter, Sortby,...

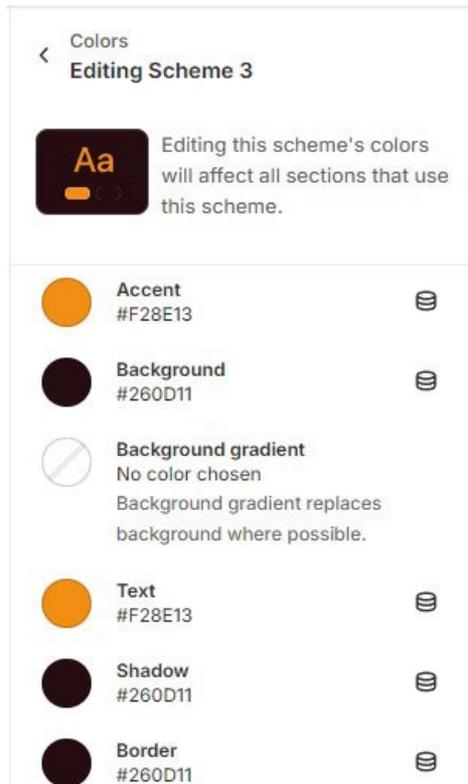

Site background: Your site background color

Text: You can change the text color of your store.

Shadow: Shadow color in your store

Shadow: Shadow color in your store.

Border: Border color in your store.

Button color

Change background and text color for all call-to-action buttons and button hover.

- Button primary: used for the most important or prominent action on your webpage (ex: "Submit" button on a form, "Buy Now" button on an e-commerce site, ...)
- Primary button: used for actions that are less important or serve as alternatives to the primary action (ex: a "Cancel" or "Reset" button in a form, ...)

	Button label Primary #FFFFFF	
	Secondary button #FFFFFF

	Dark button #FFFFFF	
	Dark button label #260D11	
	Light button #FFFFFF	
	Light button label #FFF	

Typography

Grocia has a dedicated options panel of its own, which lets you customize the styling of each part of your site to the finest detail. You can set the font style and size for the text.

NOTE

Theme supports [Google Font](#) , [Shopify Font](#) and [Custom Font](#)

STEPS

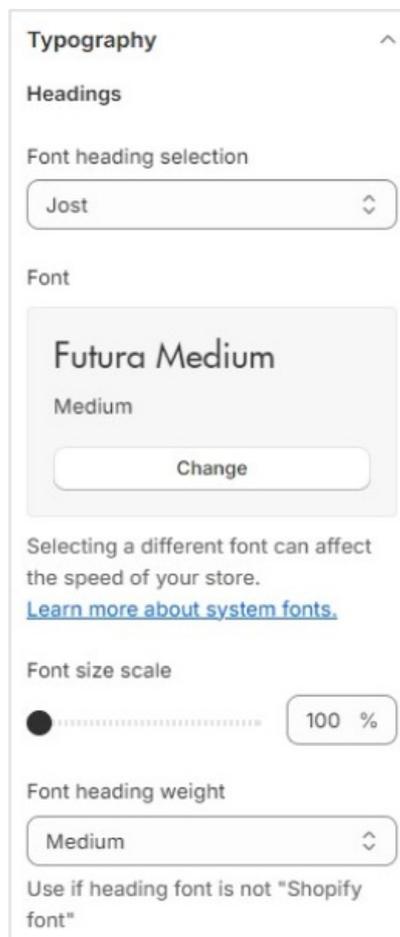

1. In the theme editor (**Customize**), click **Theme settings**
2. Locate **Typography**
3. Make necessary changes
4. **Save**

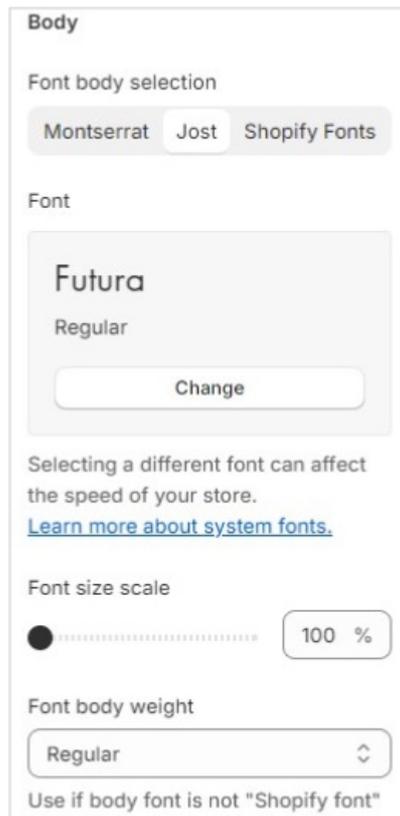

Typography is considered one of the essential components that impact the website's look and feel. It contains the following elements.

1. Headings and body text

You can either choose the existing fonts from the library or custom fonts. For the custom font, kindly follow the steps below:

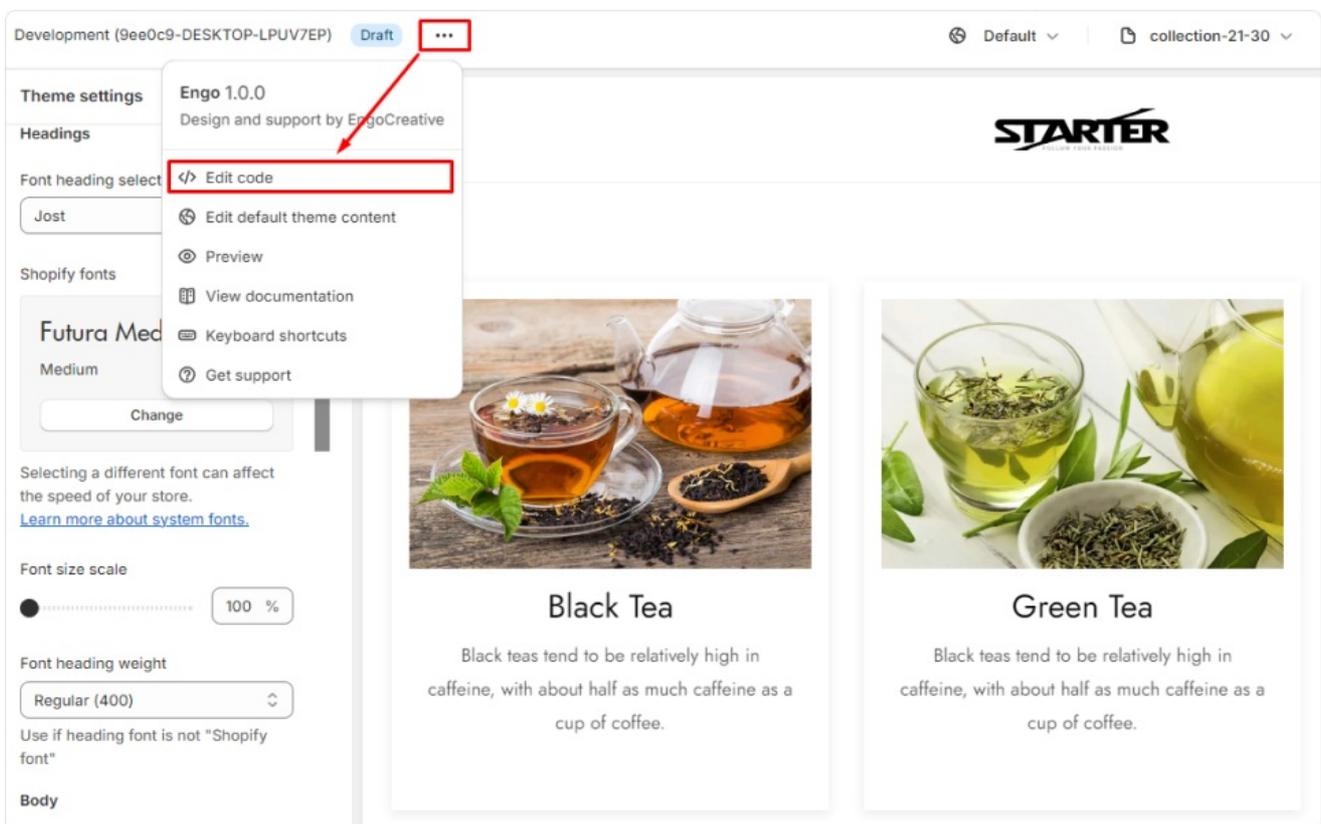

Elements related to the font such as spacing, height, weight, etc. are adjustable.

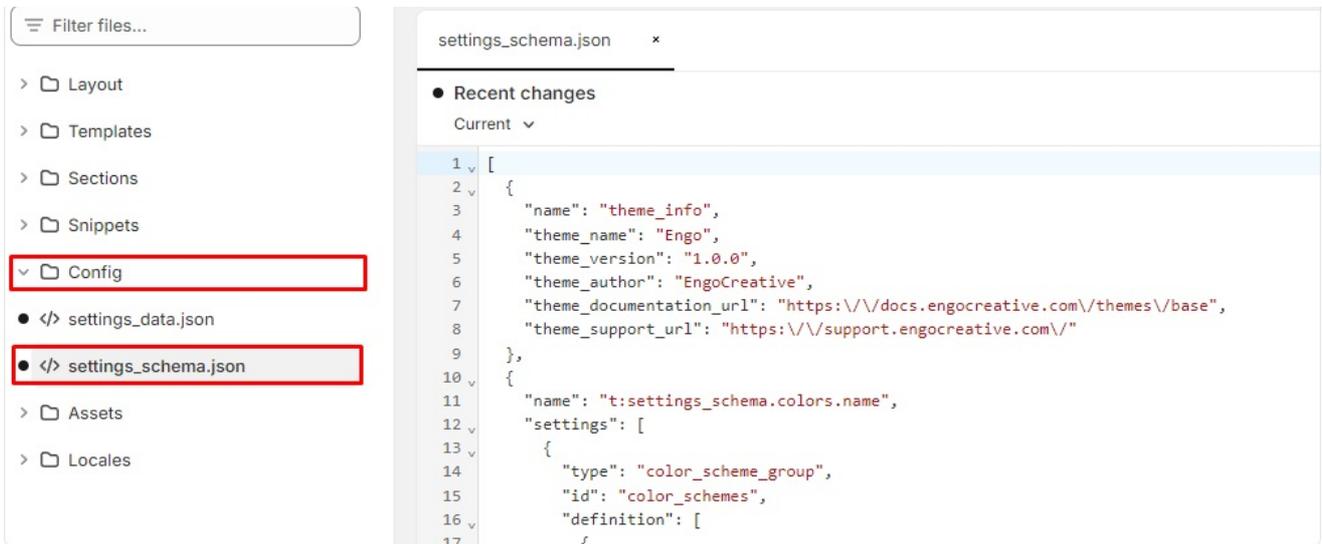

You can also add other fonts from Google Font to the font heading selection by doing the following

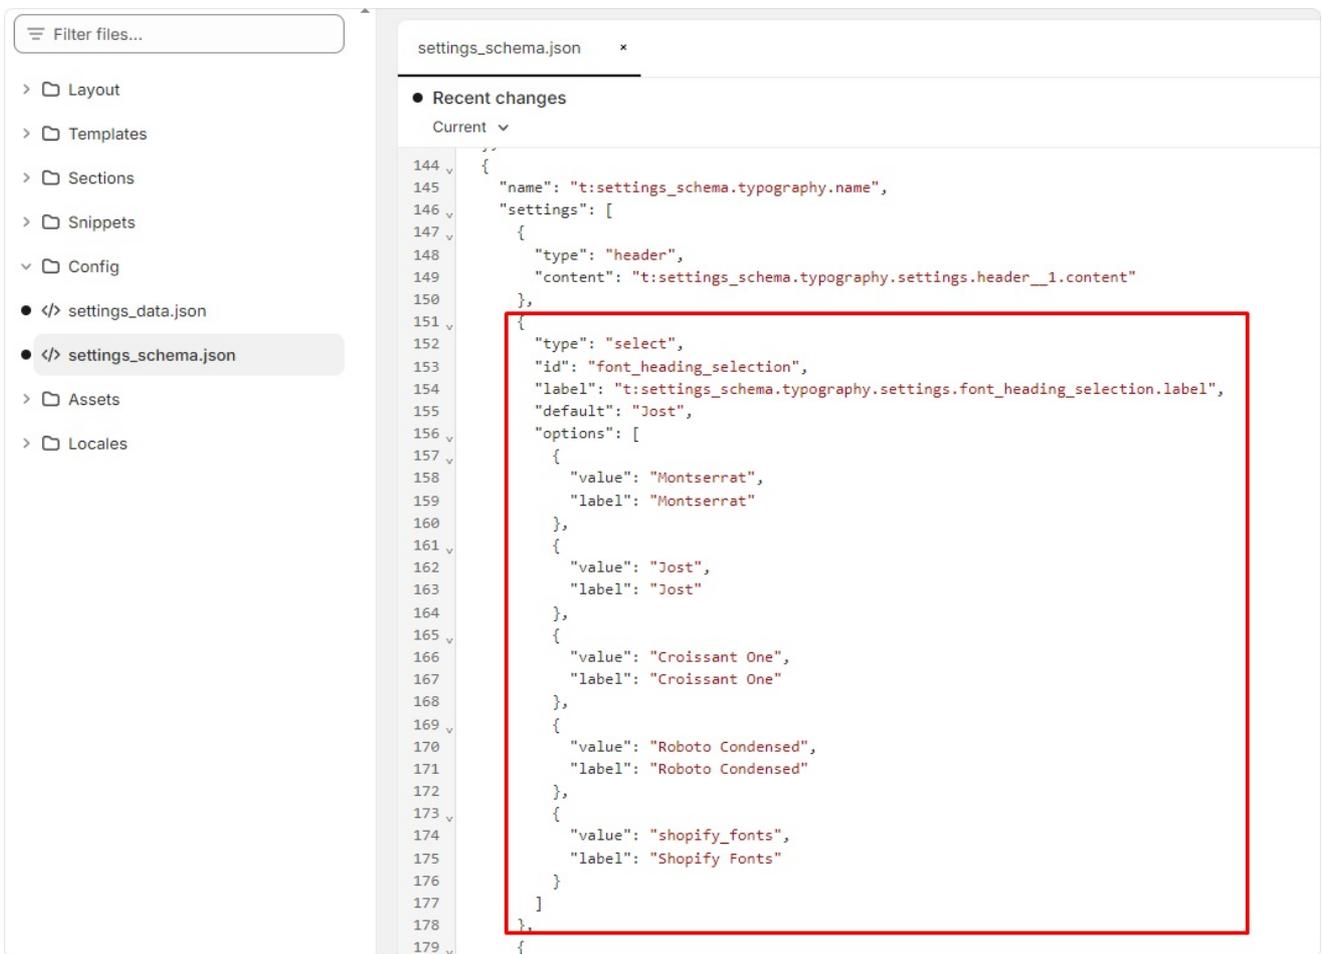

- In the customer choose edit code

- In the **Config** choose `settings_schema.json`

- Go to the `font_heading_selection`

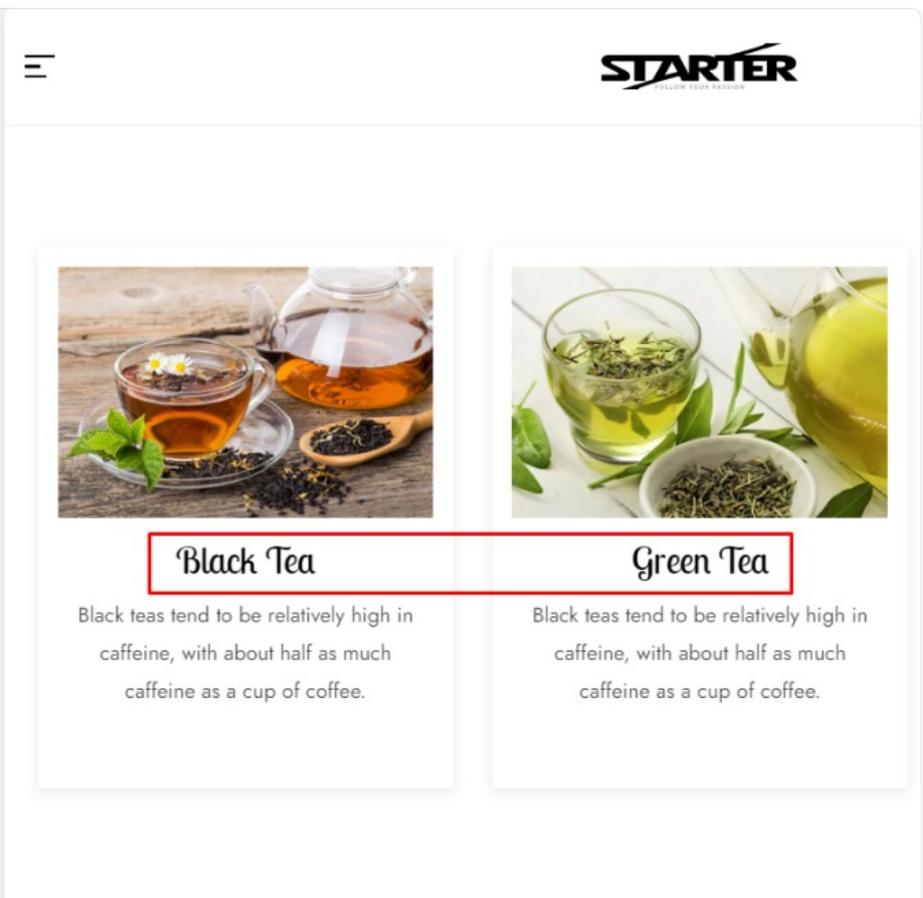

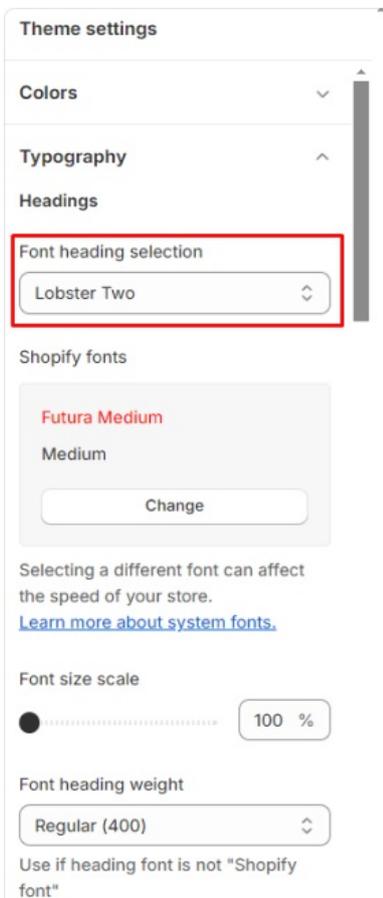

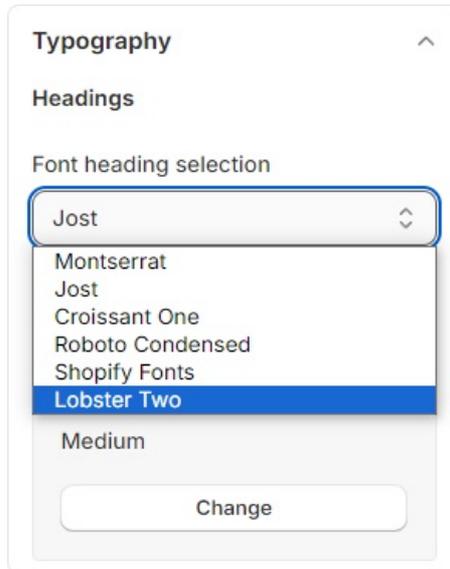

- Add font in here and save.

Change favicon icon and logo

💡 STEPS

In the theme editor (**Customize**), click **Favicon** Select image under **Favicon Save**

A **favicon**, short for favorite icon, is a tiny image that identifies and distinguishes a particular website or webpage from others.

If you have multiple tabs open in your browser at the same time, a favicon makes it easy to locate what tab you need without reading the text.

The recommended image size is 32x32px.

💡 STEPS:

1. In the theme editor (**Customize**), click **Add section**
2. Locate **Blog**
3. **Save**

Create blog posts

- In your Shopify admin, go to Online Store > Blog Posts > Add blog post.

- Enter a title for the blog post
- Enter the content of the blog post

- Choose settings for blog posts:
 - **Author:** In the drop-down menu, select the name of the author of the article.
 - **Blog:** Select the name of the blog where the article will be posted.
- In the **Featured image** section , click Upload image and then select an image to upload.
- Select Visible in the **Visibility** section or select a specific posting date for the post
- Click **save**

The screenshot shows a blog post editor interface. At the top, there is a black bar with "Unsaved changes" on the left and "Discard" and "Save" buttons on the right. The main content area is divided into several sections:

- Title:** A text input field containing "e.g. Blog about your latest products or deals".
- Content:** A rich text editor with a toolbar containing bold, italic, underline, list, link, and image icons.
- Excerpt:** A text input field with a sub-header "Excerpt" and a prompt "Add a summary of the post to appear on your home page or blog." It also has a rich text editor toolbar.
- Visibility:** A section with two radio buttons: "Visible (as of 1/21/2024, 11:45 PM EST)" (selected) and "Hidden". Below it is a link "Set visibility date".
- Featured image:** A large dashed box with an "Add image" button in the center.
- Organization:** A section with a label "Organization" and a dropdown menu for "Author" (currently showing a blurred name).
- Blog:** A dropdown menu currently set to "News".
- Tags:** A text input field containing "Vintage, cotton, summer".
- Online store:** A section with a label "Online store" and a "Theme template" dropdown.

Red boxes highlight the Title, Content, Excerpt, Visibility, Featured image, and Blog selection areas.

- Access token

ⓘ INFO

Instructions on how to get access token [link](#)

⚠ WARNING

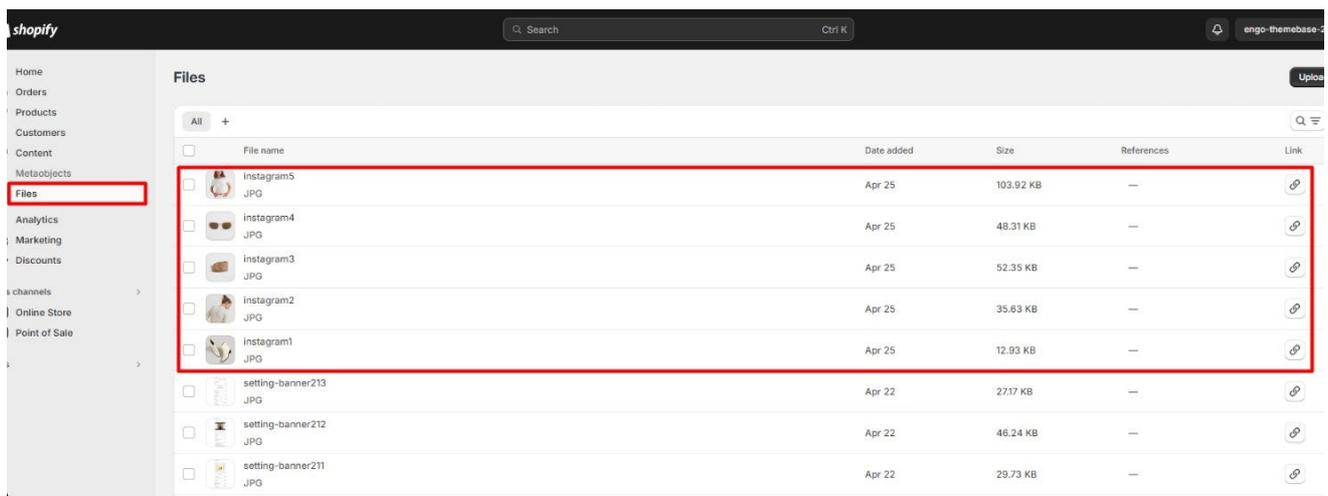

After 90 days the access token will expire. Please always update your Instagram token

◆ Access token instagram ↻ ☰

[Get access token](#)

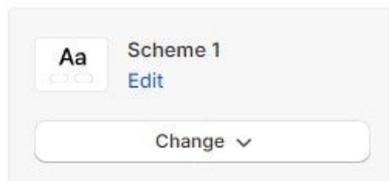

When you don't have an access token but still want to display images on the Instagram section, follow these steps:

1. Save the images you want to display in .jpg format, and the images must be named as follows: instagram1.jpg, instagram2.jpg.
2. For the number of Instagram images you want to display, take that many images and save them sequentially from 1 to n: For example, if I want to display 3 Instagram images, save the images as instagram1.jpg, instagram2.jpg, instagram3.jpg. Note that Instagram images should be square. Then go to the settings of the store, select the content section, choose file -> upload the Instagram images you just saved here.

Product title: product name

Step

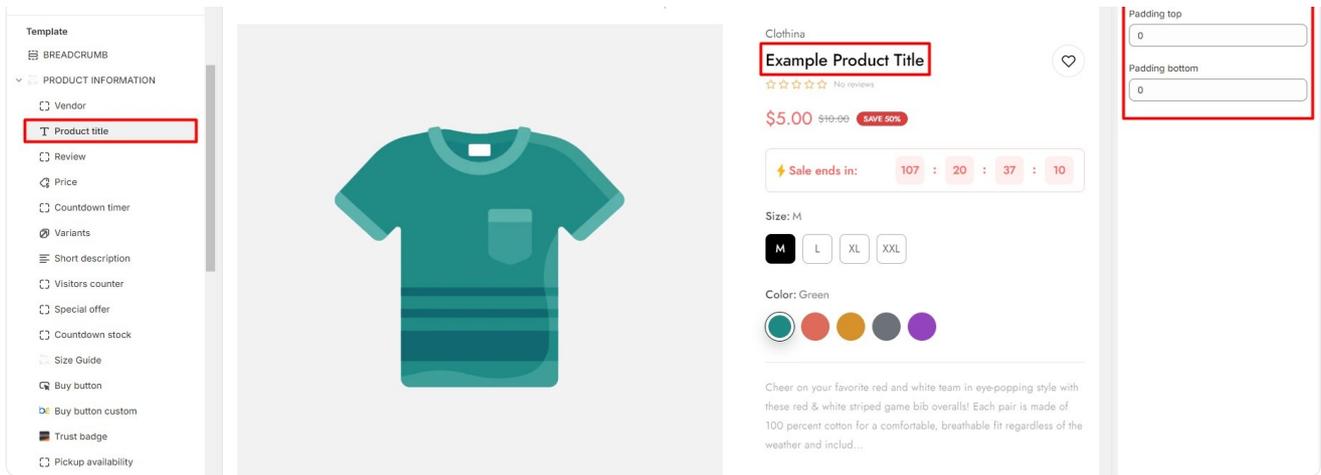

TIP

Add Brand Image

- From Themes ==> **Customize**, go to the Product Page of your specified product.
- In the Product Information section, select "**Add Block**".
- Choose "**Product title**".
- Title that you previously added will now be displayed automatically on the product page.

The screenshot displays the 'Product title' settings page. The 'Title' field is highlighted with a red border and contains the text 'Example Product Title'. Below it is a 'Description' field with a rich text editor containing a paragraph about red and white striped game bib overalls. The right sidebar contains several sections: 'Status' (Active), 'Publishing' (Online Store, Point of Sale), 'Markets' (France and Vietnam, International), 'Insights' (Insights will display when the product has had recent sales), 'Product organization' (Product category: Shirts & Tops, Product type: Entertainment, Vendor: Clothina), and 'Collections'.

- Font size is adjustable
- Section padding allows you to specify the space between the slideshow and the preceding or following sections, or both.

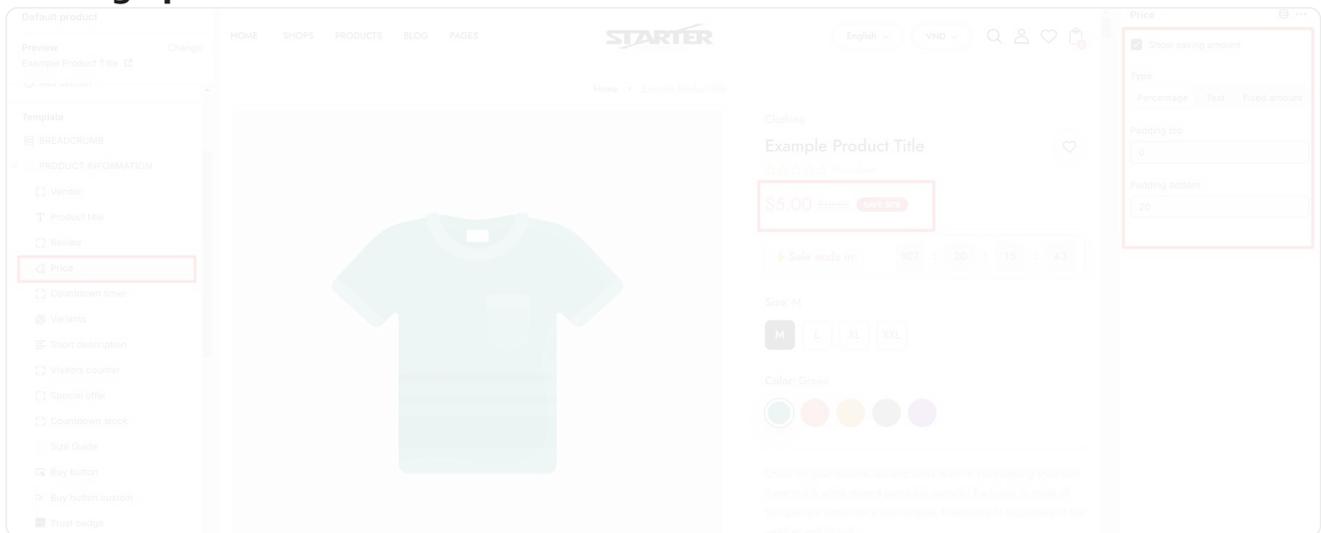

Price

💡 STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "Price".
3. Price that you previously added will now be displayed automatically on the product page.

Settings price

- To enable **showing saving amount** along with the price, you can do so in the section settings under the **"Price"** subsection.
- Section padding allows you to specify the space between the slideshow and the preceding or following sections, or both.

Countdown timer

A countdown clock for promotion/new collection release can bring excitement to customers that have been waiting for the event.

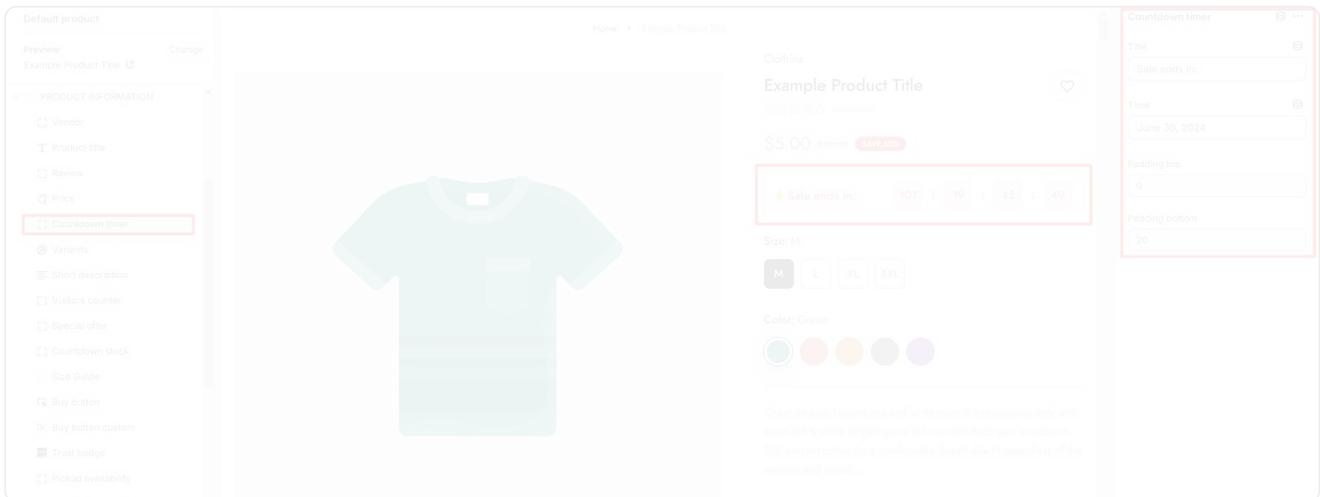

STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "Countdown time".

Settings countdown timer

- Add **Title** and the end **Time** of the event.
- Section padding allows you to specify the space between the slideshow and the preceding or following sections, or both.

Variants

Display the product variants in different form on both Quickview modal and product page

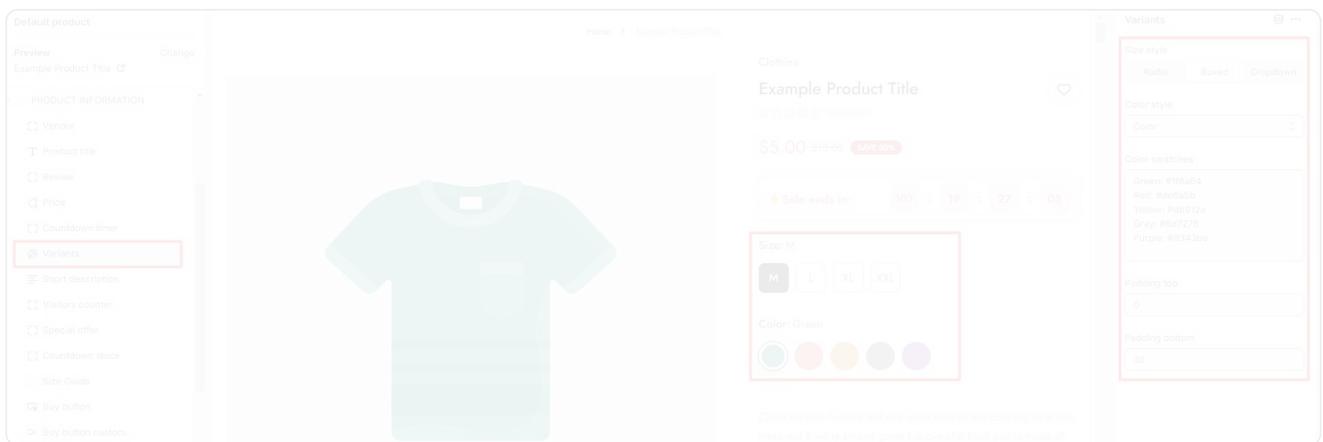

💡 STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Variants**".
3. Size and color that you previously added will now be displayed automatically on the product page.

Colors palette

Choose the suitable **HEX color** codes and add them to the provided box.

Short description

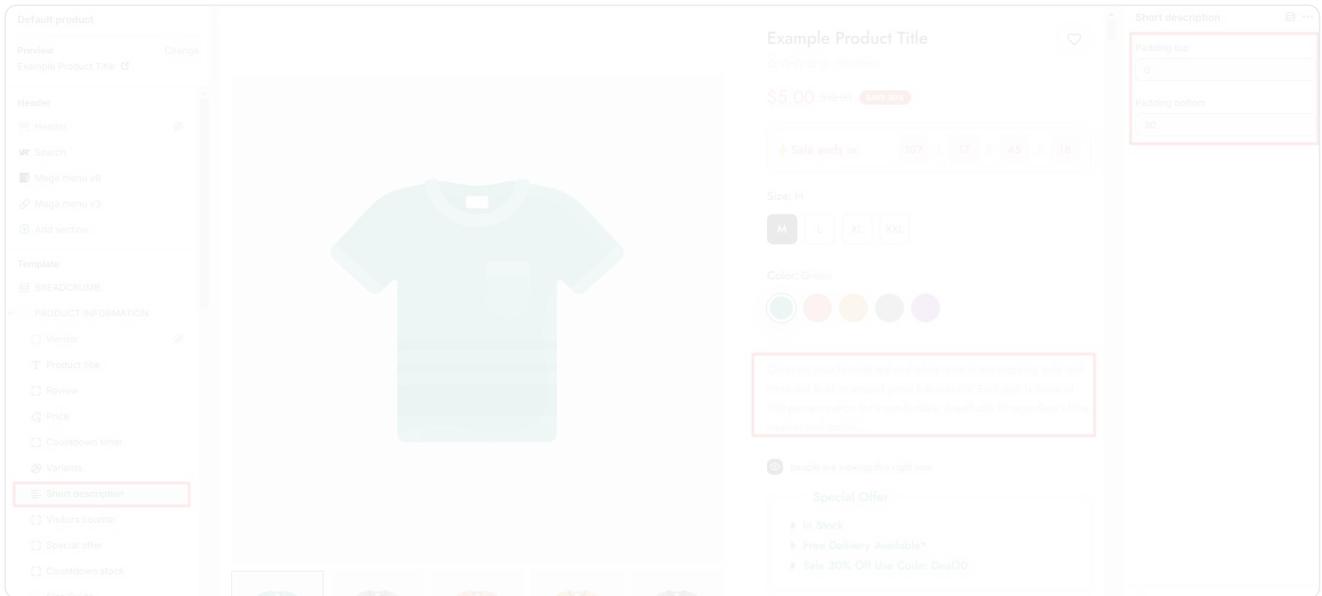

STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Short description**".

Settings

- Section padding allows you to specify the space between the slideshow and the preceding or following sections, or both.

Visitor counter

NOTE

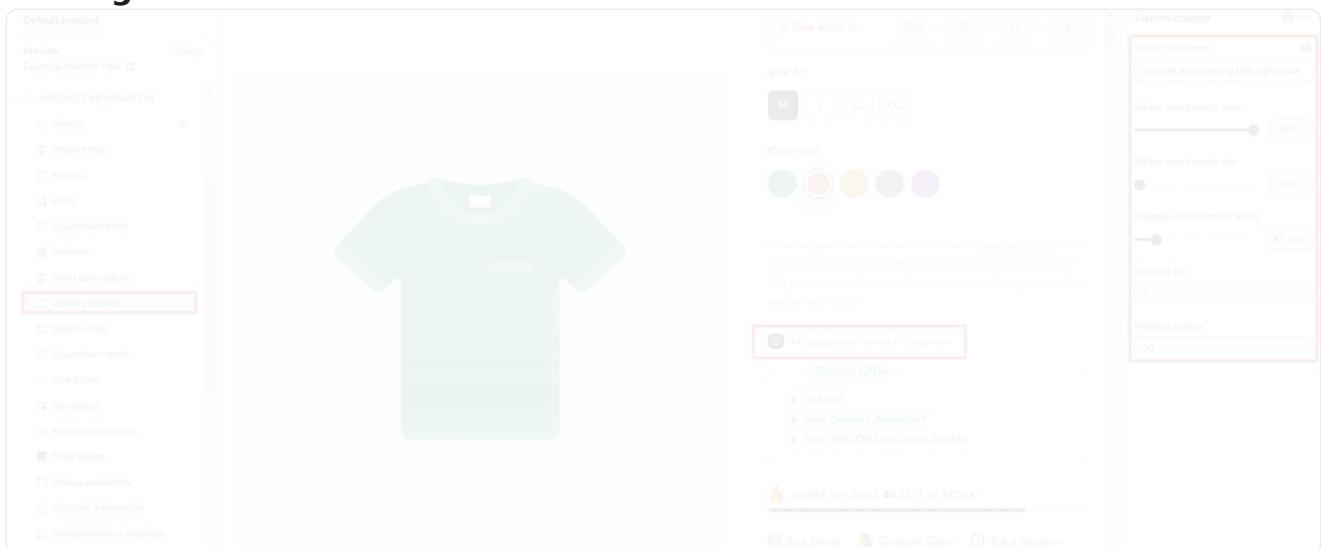

This is a **fake feature** that helps store owners boost sales!

STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Visitor**".

Settings visitor counter

- **Visitor count text:** You can add the content that you wanna show on the Live view message here.
- **Visitor count range max/min:** Configure the number of the minimum/ maximum visitor in the real-time of the Live view option here.
- **Change count number every:** You can configure the time (seconds) that the number of visitors will change here.
- Section padding allows you to specify the space between the slideshow and the preceding or following sections, or both.

Special offer

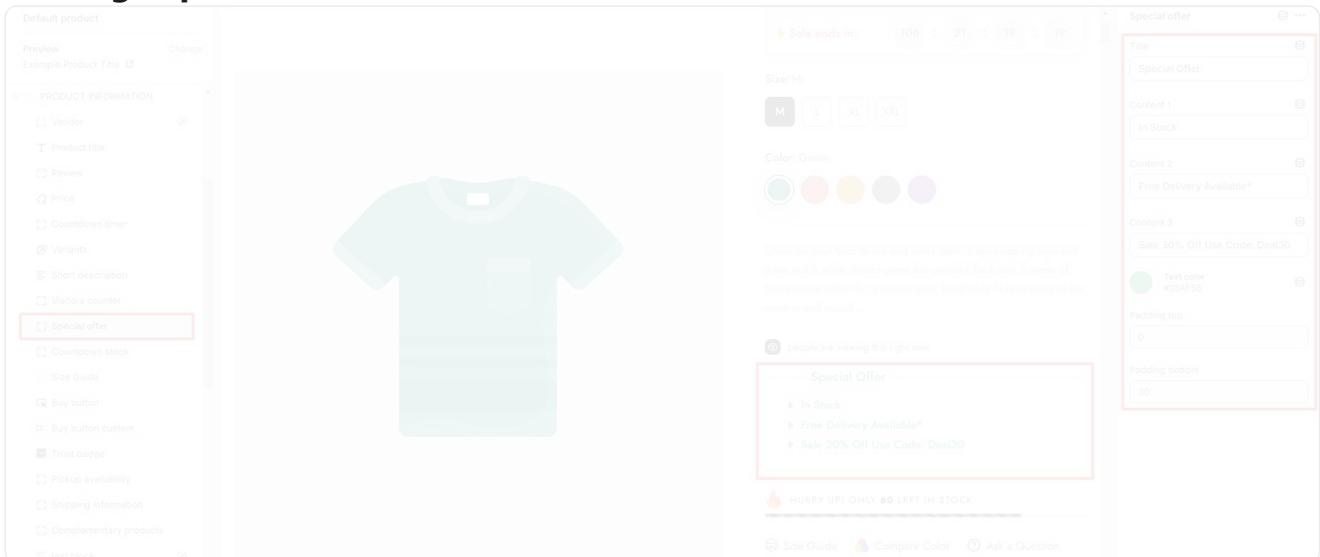

- **Special offer** may include perks such as discounts, complimentary gifts, free shipping, or other incentives aimed at enticing buyers. Special offers can also serve to create excitement and generate curiosity about the product or service, especially in the face of strong competition from rivals.

💡 STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Special offer**".

Settings special offer

- **Title:** You can add the content that you wanna show on the Special offer message here
- **Content 1/2/3:** You can add the content about special offer
- **Text color:** Change text colors to match the website
- Section padding allows you to specify the space between the slideshow and the preceding or following sections, or both.

Countdown stock

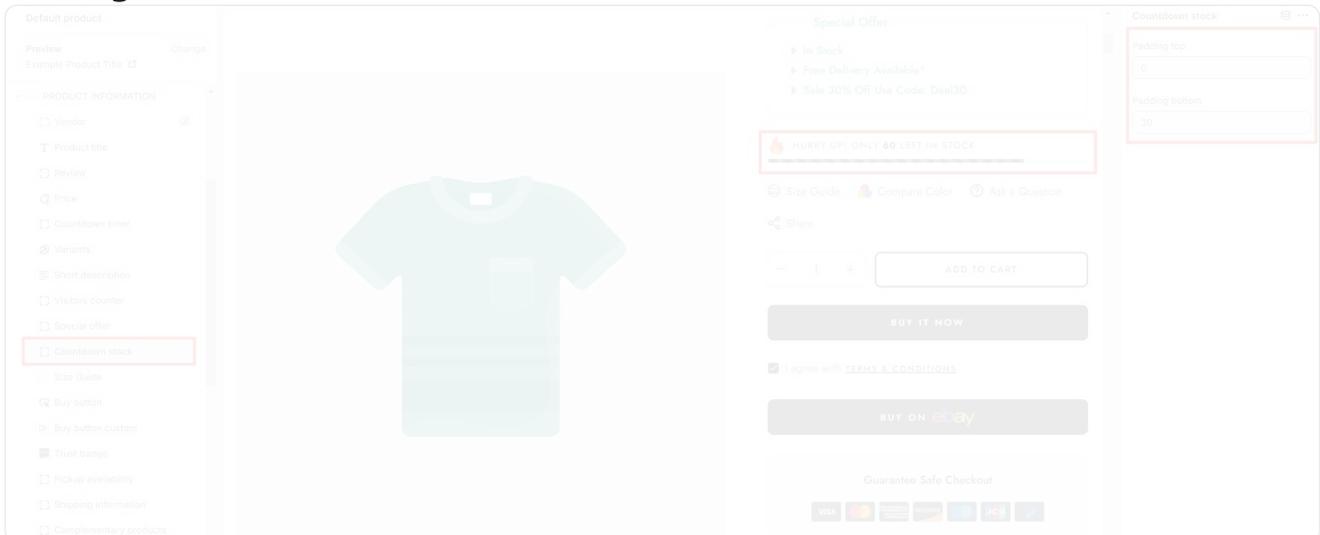

Stock countdown: Display remaining stock on the product page by syncing the inventory.

💡 STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Countdown stock**".

Settings countdown stock

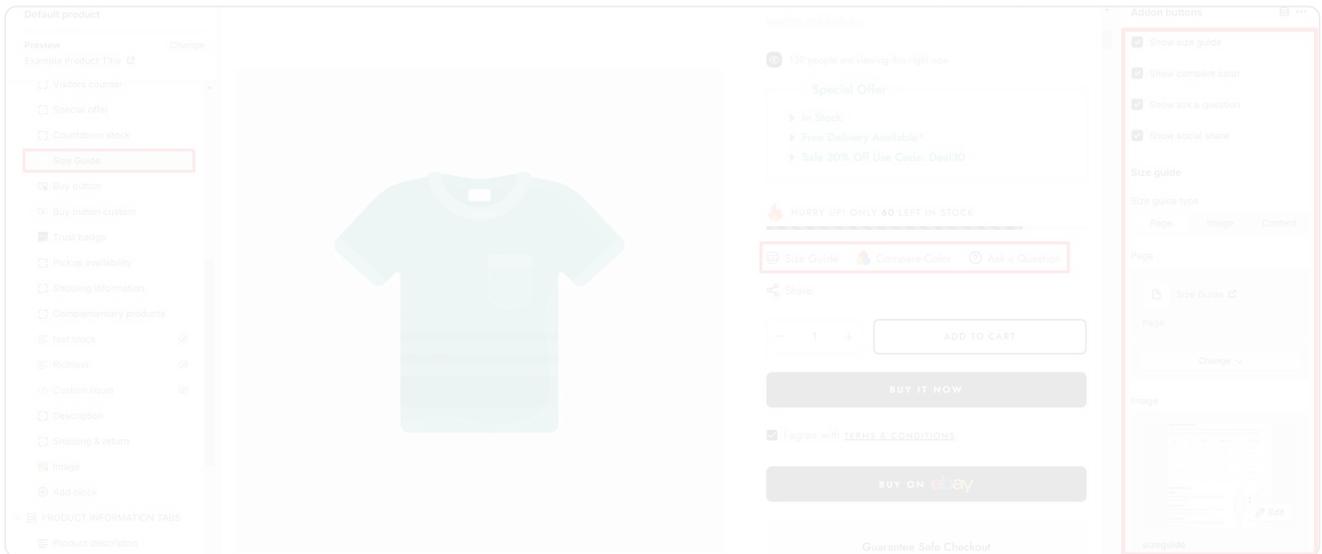

- Section padding allows you to specify the space between the slideshow and the preceding or following sections, or both.

Size guide

STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Size guide**".

Size guide

Helps customers determine the appropriate size to order, reducing the likelihood of returns due to incorrect sizing. Providing a size guide enhances the shopping experience for customers by enabling them to make more informed purchasing decisions, leading to greater satisfaction and potentially fewer product returns.

Sizes for this Product.

This is an approximate conversion table to help you find your size. Measure around the fullest part, place the tape close under the arms and make sure the tape is flat across the back (Unit: centimeter).

Size	US	Bust	Body Waist	Fullest Hip
XS	2	32	24 - 25	33 - 34
S	4	34 - 35	26 - 27	35 - 36
M	6	36 - 37	28 - 29	37 - 38
L	8	38 - 39	30 - 31	39 - 40
XL	10	40 - 42	32 - 33	41 - 42
XXL	12	40 - 41	34 - 3	43 - 44

How to Measure.

1. Bust

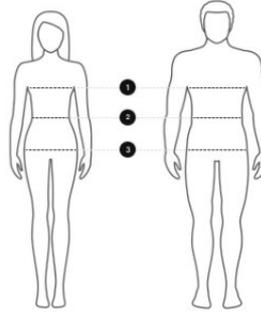

Measure at the fullest part of your chest, keeping the tape parallel to the floor.

2. Body Waist

Measure at the smallest part of your waist. This is usually below the rib cage and above the hip bone.

3. Fullest Hip

Measure at the fullest part of your seat, keeping the tape

- Section padding allows you to specify the space between the slideshow and the preceding or following sections, or both.

Buy button custom

STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Buy button custom**".

Trust badge

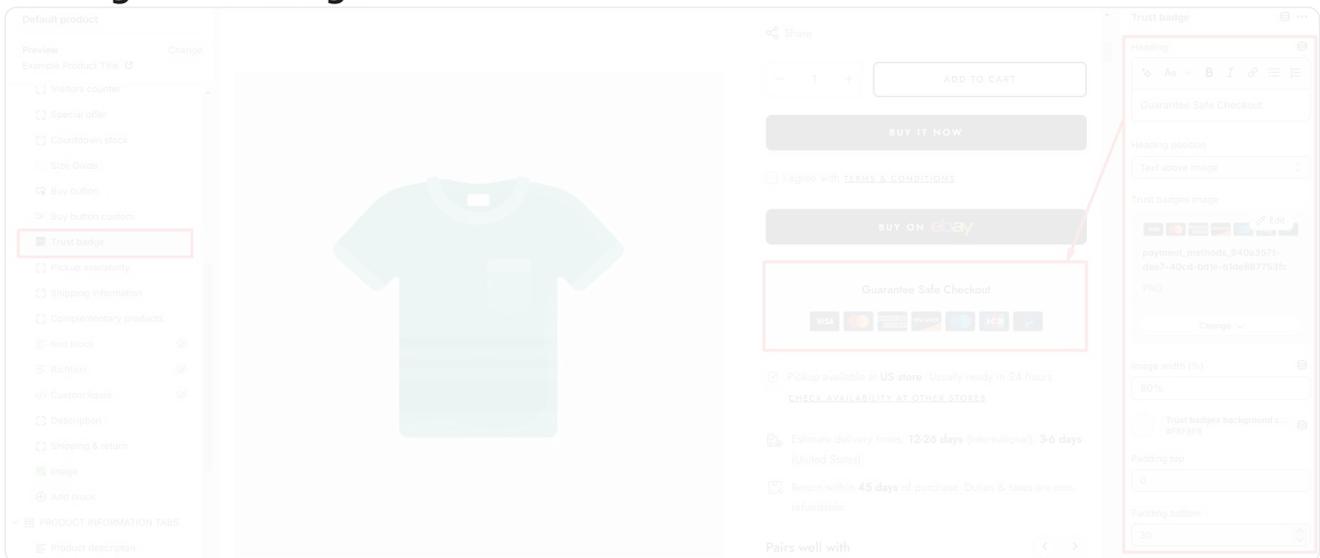

Trust badge: Updating the Trust Badge helps create customer trust regarding products.

💡 STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Trust badge**".

Settings Trust badge

- **Heading:** This option allows you to enter text for Trust Badge.
- **Heading position:** We have 2 modes: Text above image and Text below image
- **Trust badges image:** You can upload a custom image for the Trust Badge here.
- **Image width:** Configure the size for the Trust Badge image here.
- Section padding allows you to specify the space between the slideshow and the preceding or following sections, or both.

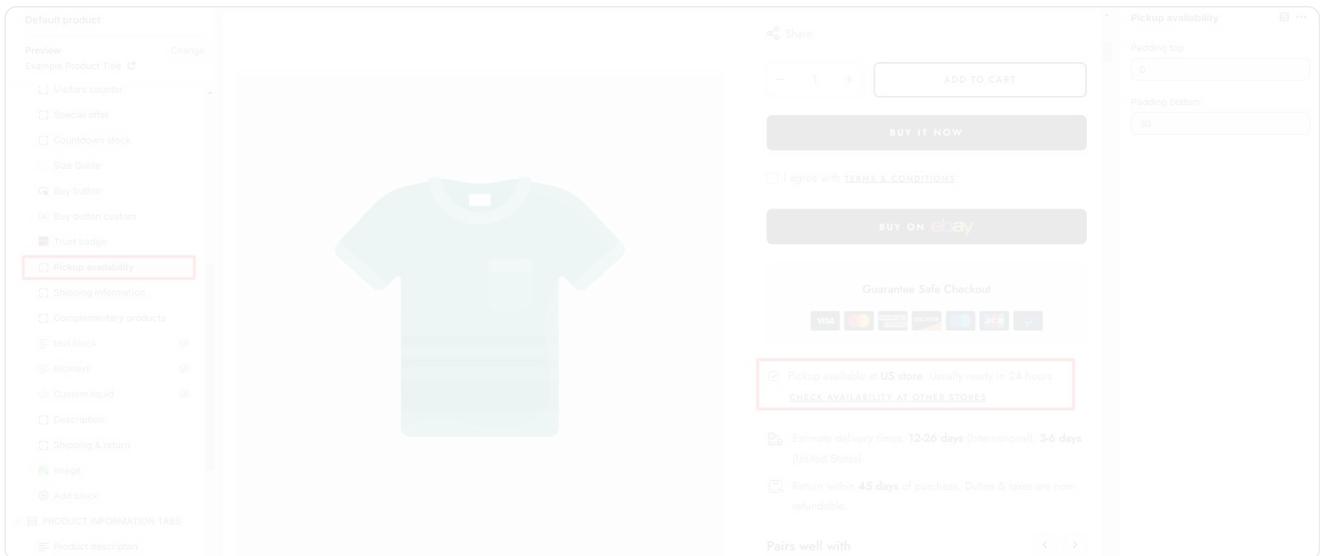

Pickup availability

Pickup availability: When customers are close to your business, you can offer unique, local methods for them to receive their products. This can speed up your fulfillment time and create a better experience for your customers. [Set up pickup and local delivery](#)

STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

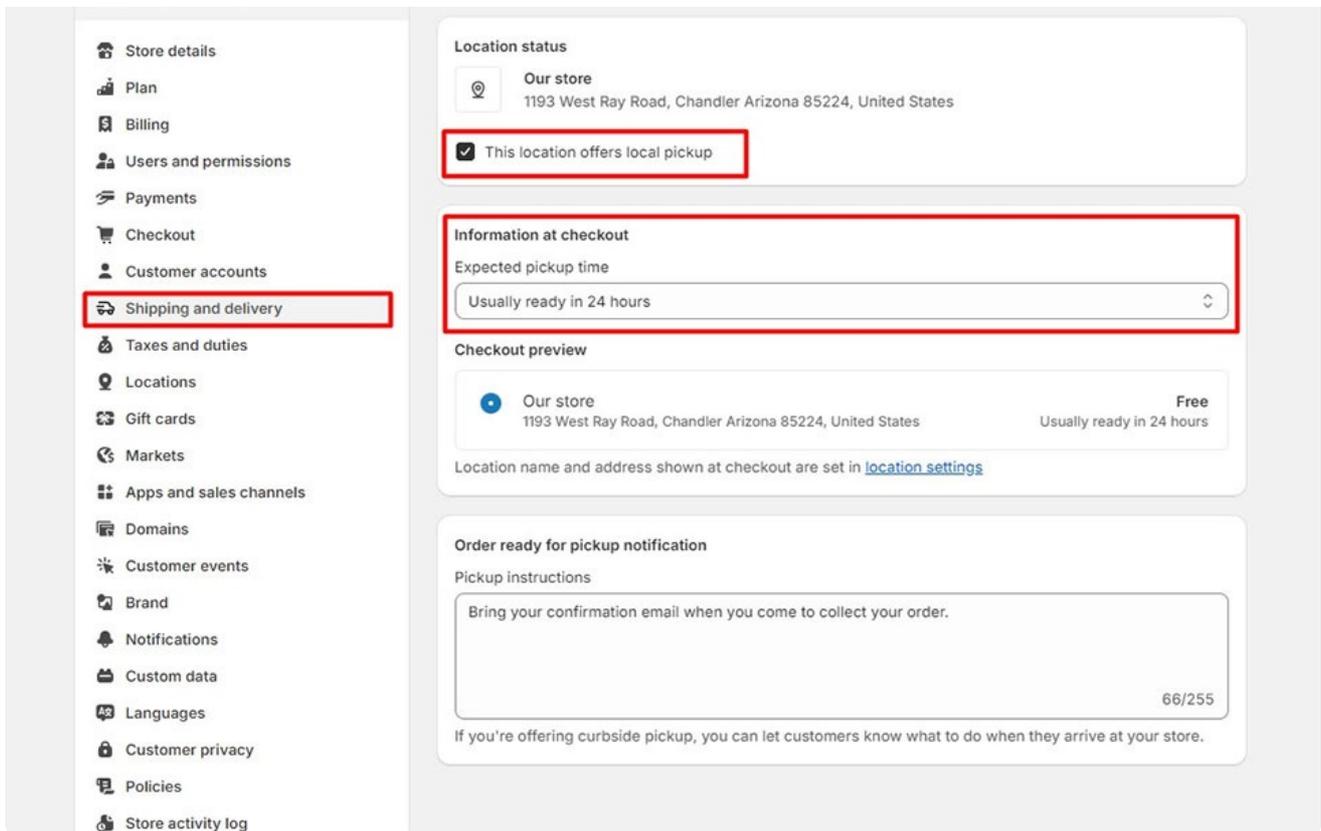

1. In the Product Information section, select "Add Block".
2. Choose "**Pickup availability**".

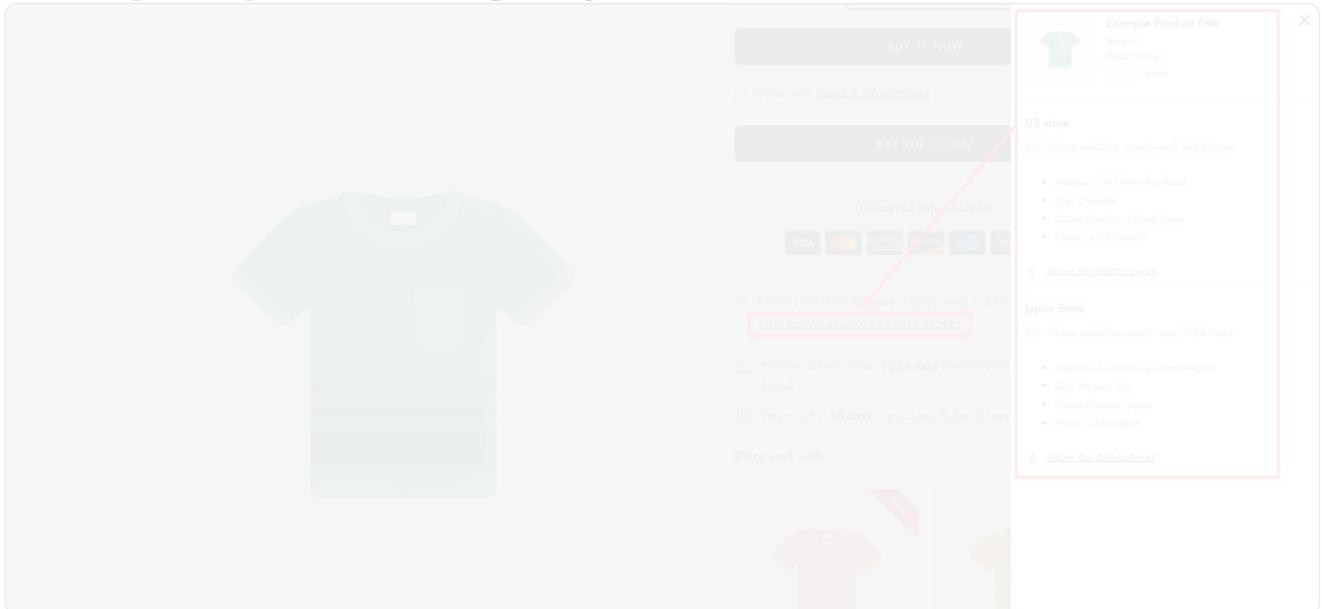

Set up local pickup option

Steps:

1. From your **Shopify Admin**, go to **Settings > Shipping and Delivery**.
2. In **Local pickup**, click **Manage** beside the location you want to enable local pickup. Click **Show more** if you have several locations. You must have a location set up already before you can select it, see [Locations](#) to set up multiple locations.
3. Under **Location status**, select **This location offers local pickup**.
4. Under **Information at checkout**, change the settings to meet your needs.
5. Under **Order ready for pickup notification**, enter pickup instructions for customers (Optional).
6. **Save** the settings.

Show pickup availability to your customers

Your theme lets you show customers whether a product is available for local pickup. On each product page, a pickup availability section shows whether the product is available, and the estimated time frame for pickup. This information appears only for products that are stocked at at least one pickup location and have **This is a physical product** selected in the **Shipping** section of a product variant's details.

Steps:

1. From your Shopify Admin, go to **Products**.
2. Select a product.
3. Under **Variants**, select a variant.
4. Under **Shipping**, check **This is a physical product**.

5. Under **Inventory**, select locations that stock the selected variants.
6. **Save** the settings. If you have local pickup enabled for only one location, then the location and pickup availability is displayed for that location. Customers can click **View store information** to learn more about the pickup location. If you have local pickup enabled for more than one location, then the pickup availability section displays the location and pickup availability for one of your stores. Customers can click **Check availability at other stores** to check the product's availability at all of your locations that have pickup enabled.

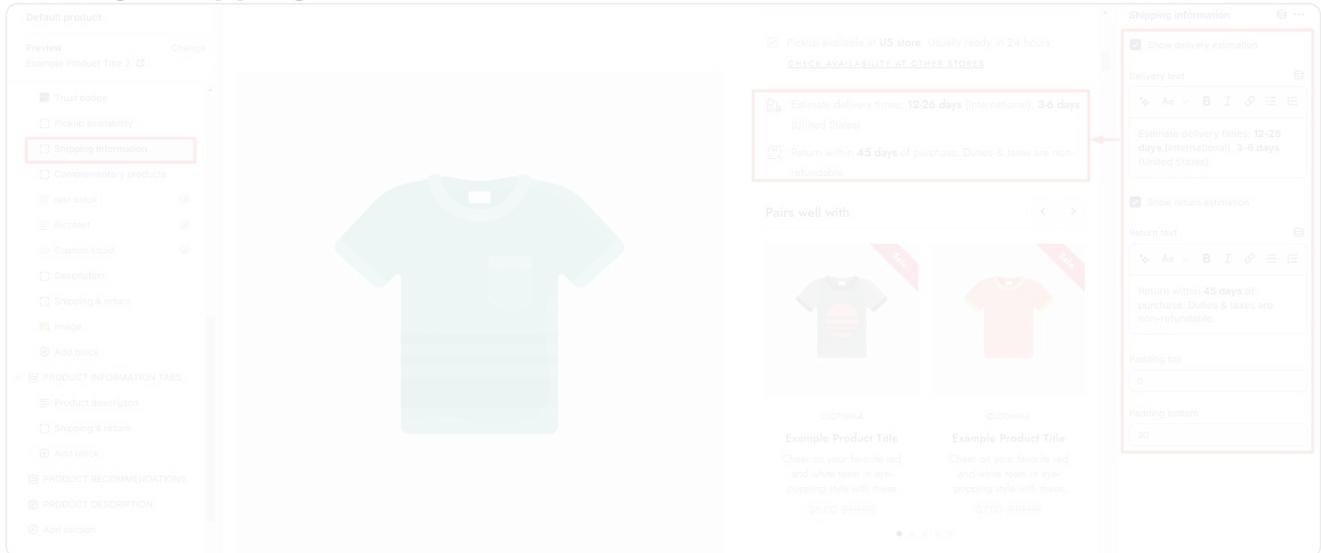

Shipping Information

💡 STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Shipping Information**".

Settings shipping information

- Enable/disable showing delivery estimation and Delivery text. Add info regarding the delivery, shipping text, and the number of days that the package will arrive.
- Enable/disable Show return estimation and Return text. Add info regarding the return.

Complementary products

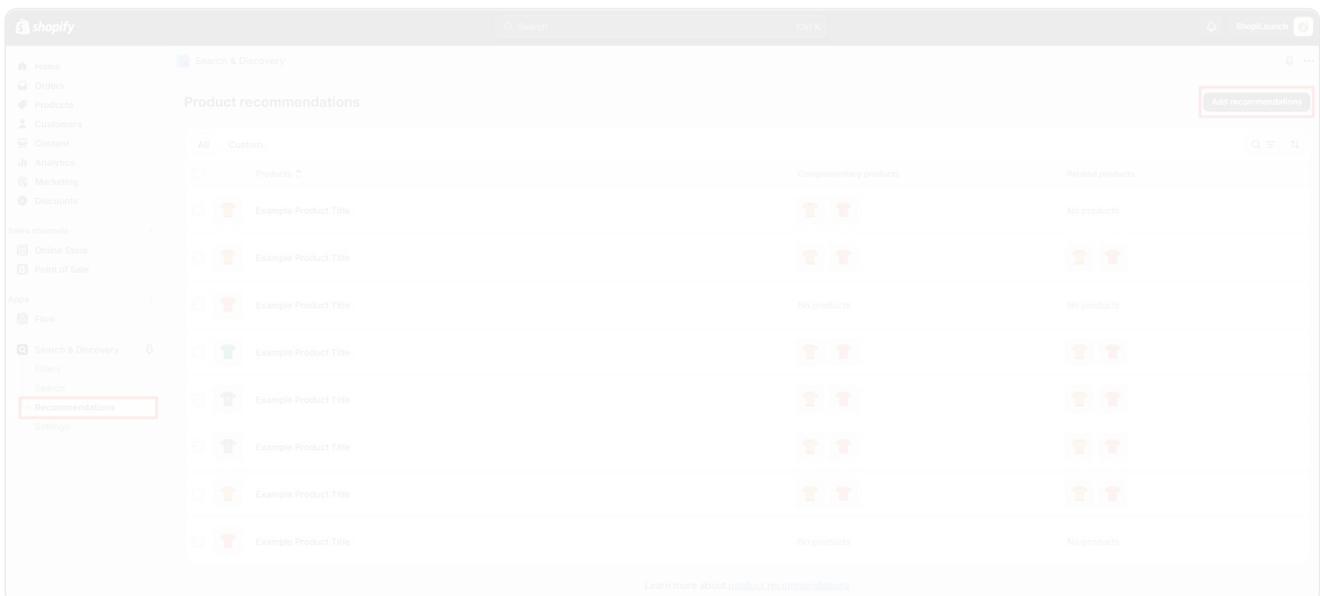

Complementary products: This is a way to increase additional sales opportunities and enhance the shopping experience for customers by providing information about related products or services they may want to purchase along with the main product.

💡 STEPS:

1. Install **Search & Discovery** app by Shopify
2. From your Shopify admin, open **Search & Discovery** app then click **Recommendations**
3. Select the product that needs additional product recommendation
4. Click **Add recommendations**
5. Select the products you want to display complementary products
6. Product complementary will be displayed in the **COMPLEMENTARY PRODUCTS** section

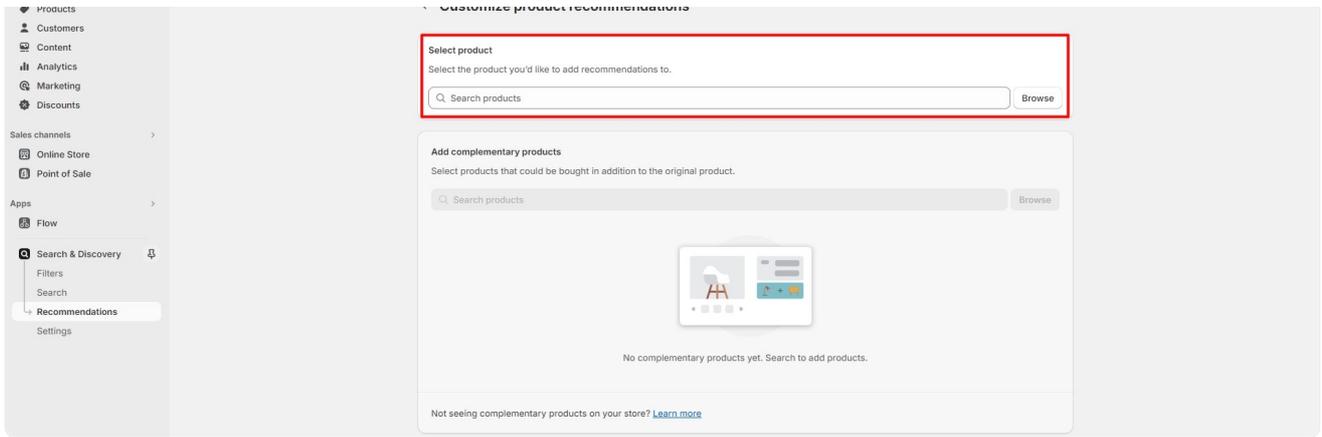

📘 NOTE

Products that want to display complementary products need to have quantity available

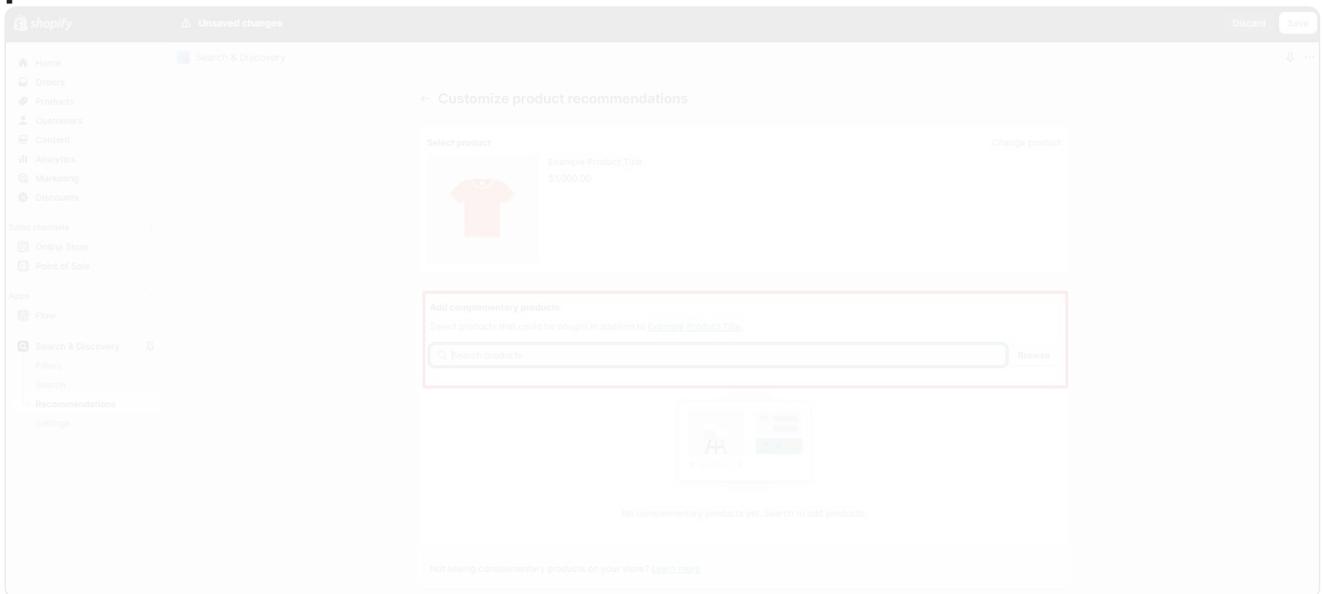

1. Select the product you'd like to add recommendations to.

2. Select products that could be bought in addition to the original product.

- Select up to 10 Related products to recommend. Set the product to display only the custom complementary or to display both custom complementary and automatically generated complementary.

💡 STEPS

From Themes ==> Customize, go to the Product Page of your specified product.

1. In the Product Information section, select "Add Block".
2. Choose "**Complementary products**".

Create menu

Create Menu

In the **Online Store**, click **Navigation**

Go to **Navigation** to create a menu. Click **Add menu** to add new or choose any items below the menu to edit.

Write the menu's name, then choose **Add menu item**. Write the menu item's name and choose the item in the dropdown box > click **Add**.

The screenshot displays a menu configuration interface. On the left, there is a 'Title' field containing 'e.g. Sidebar menu' and a 'Menu items' section with a message 'This menu doesn't have any items.' and an '+ Add menu item' button. On the right, there is a 'Handle' section with explanatory text and a search box containing 'e.g. About us' and 'Search or paste a link'. A red arrow points from the '+ Add menu item' button to the search box. At the bottom right, there are 'Cancel' and 'Add' buttons. In the middle right, there are 'Cancel' and 'Save menu' buttons.

To make an item to a child menu, drag it under the main item.

Menu items can also be added to create the same level as a child menu. **Save**

Header v1

Edit header for your store

The header is a content block at the upper part of your website that appears on every page. It usually contains the logo of a store, the main navigation menu, and other elements such as a search bar, shopping cart icon, etc.

The header plays a vital role in branding your site, helping visitors navigate, and displaying your most important pages.

You can freely customize your header to suit your business needs by adding your logo image, choosing the main menu, and other addons using your theme.

Header settings

- You can control how the transparent background is displayed by checking/unchecking the checkboxes.
- Add a logo in the header to grab visitors' attention and set the tone for your brand. The recommended image size and format is 120x30px .png with a transparent background.

💡 TIP

1. In the theme editor (**Customize**), click **Header**
2. Select image under **Logo image**
3. **Save**

- Resize the logo image by increasing or decreasing the width on desktop/mobile.

Footer v1

Appears and features information at the bottom of the page

The footer is the section of content at the bottom of a web page. The footer menu typically contains quick links to your homepage, about us page, blogs page, contact page, policy page, etc.

A great website footer will help your visitors navigate your site and will lead to a greater ecommerce experience.

STEPS

1. In the theme editor (**Customize**), click **Theme settings**
2. Locate **Footer**
3. Make necessary changes
4. **Save**

Footer settings

1. Layout settings

- **Container type:** You can choose among Box, Wide, Fullwidth for the policy layout.
- **Payment image:** Select the image to display from store

Footer v2

Appears and features information at the bottom of the page

The footer is the section of content at the bottom of a web page. The footer menu typically contains quick links to your homepage, about us page, blogs page, contact page, policy page, etc.

A great website footer will help your visitors navigate your site and will lead to a greater ecommerce experience.

STEPS

1. In the theme editor (**Customize**), click **Theme settings**
2. Locate **Footer**
3. Make necessary changes
4. **Save**

Footer settings

1. Layout settings

- **Container type:** You can choose among Box, Wide, Fullwidth for the policy layout.
- **Payment image:** Select the image to display from store

IMPORTANT

For **Copyright**, you need to enter the correct code below. If there are any changes, only change the text Engo-theme, ShopiLaunch, Powered by Shopify.

```

Set up local pickup

How to set up local pickup for your online orders?

You can set up the option for customers to pick up their online orders at your retail store, curbside, or any location that you choose.

After you enable the local pickup option, your customers can choose between **Ship** and **Pick up** in the Delivery method section of your checkout. When they select Pick up, they can choose the location where they want to pick up their order.

Prerequisites

You need to complete the following before you can offer local pickup:

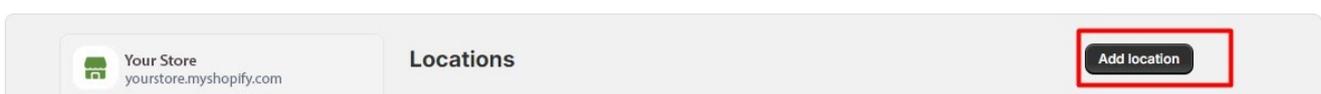

- Verify that the [fulfillment priority order](#) for your online orders is set up to meet your business needs.
- [Stock inventory at each pickup location](#).
- Disable any pickup apps.
- Ensure that each person who is preparing items for pickup or marking orders as picked up has access to your Shopify admin.
- Update any [location names](#) so that customers can understand where to go to pick up their order.
- [Let each pickup location fulfill online orders](#).

By default, letting a location fulfill online orders also means that non-pickup online orders can take inventory from your pickup or retail locations. Make sure that you review your [fulfillment priority](#) and modify it if necessary. If the **Continue selling when out of stock** option is selected for a product, then local pickup orders can be placed for locations without inventory.

Set up local pickup option

Steps:

1. From your **Shopify Admin**, go to **Settings > Shipping and Delivery**.
2. In **Local pickup**, click **Manage** beside the location you want to enable local pickup. Click **Show more** if you have several locations. You must have a location set up already before you can select it, see [Locations](#) to set up multiple locations.
3. Under **Location status**, select **This location offers local pickup**.
4. Under **Information at checkout**, change the settings to meet your needs.
5. Under **Order ready for pickup notification**, enter pickup instructions for customers (Optional).
6. **Save** the settings.

Manage the places you stock inventory, fulfill orders, and sell products. You're using 3 of 1000 locations available on your plan.

- Our store** 1193 West Ray Road, Chandler Arizona 85224, United States Default
- Shop location** Vietnam
- Test** 96a Phố Định Công, 96A, Dinh Cong 100000, Vietnam

Default location

Show pickup availability to your customers

Your theme lets you show customers whether a product is available for local pickup. On each product page, a pickup availability section shows whether the product is available, and the estimated time frame for pickup.

This information appears only for products that are stocked at at least one pickup location and have **This is a physical product** selected in the **Shipping** section of a product variant's details.

Steps:

1. From your Shopify Admin, go to **Products**.
2. Select a product.
3. Under **Variants**, select a variant.
4. Under **Shipping**, check **This is a physical product**.
5. Under **Inventory**, select locations that stock the selected variants.
6. **Save** the settings.

The screenshot shows a product page for a 'Sleeveless Stretch Cardigan'. On the left is a large image of the cardigan, which is blue with a V-neck, buttons down the front, and two chest pockets. On the right, the product details are displayed:

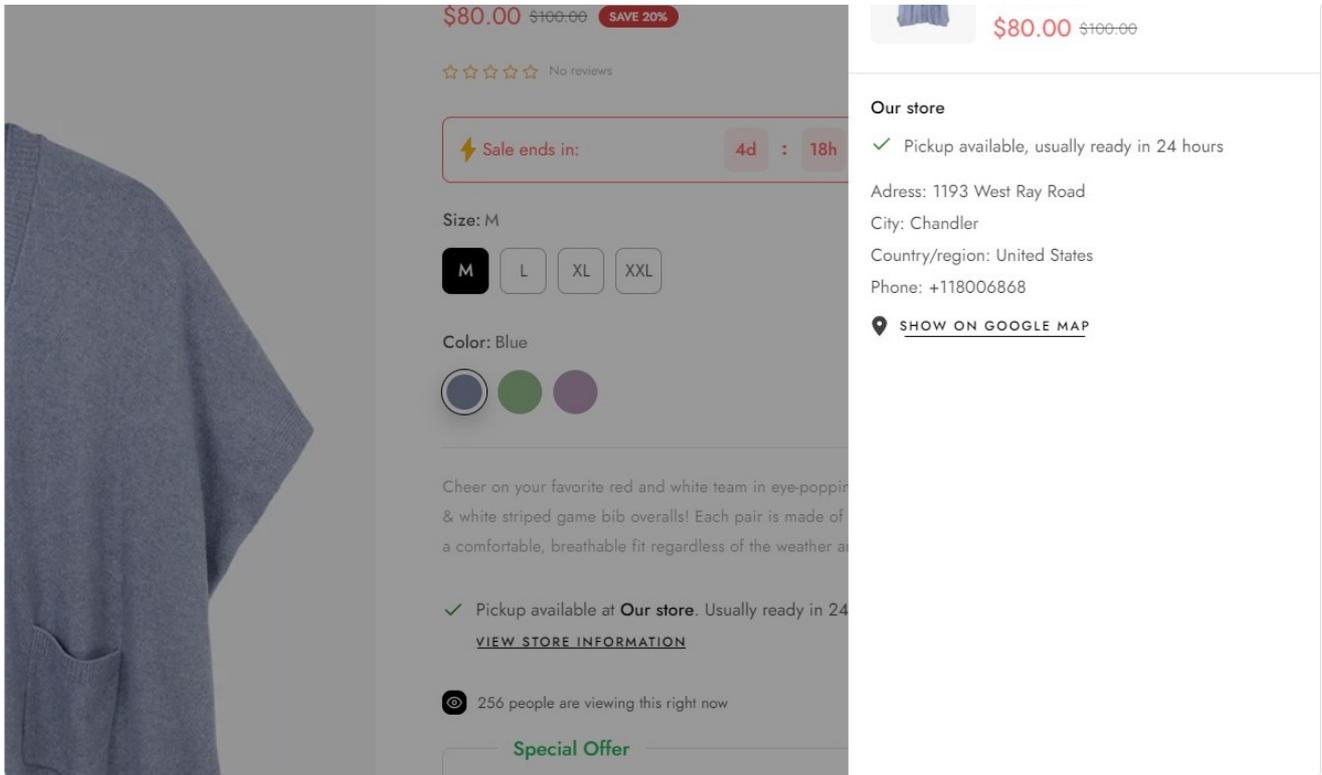

- Product Name:** Sleeveless Stretch Cardigan
- Price:** \$80.00 (original price \$100.00, 20% off)
- Reviews:** No reviews
- Sale Ends In:** 4d : 18h : 53m : 3s
- Size:** M (selected), L, XL, XXL
- Color:** Blue (selected), Green, Purple
- Availability:** Pickup available at Our store. Usually ready in 24 hours. (This section is highlighted with a red box in the image)
- Special Offer:** In Stock, Free Delivery Available*

Sleeveless Stretch Cardigan

Sleeveless Stretch Cardigan
Size: M
Color: Blue

If you have local pickup enabled for only one location, then the location and pickup availability is displayed for that location. Customers can click **View store information** to learn more about the pickup location.

If you have local pickup enabled for more than one location, then the pickup availability section displays the location and pickup availability for one of your stores. Customers can click **Check availability at other stores** to check the product's availability at all of your locations that have pickup enabled.

Add gift card product

You can think of these gift cards as you would for other products. Your customers can purchase them and then give them away to their friends.

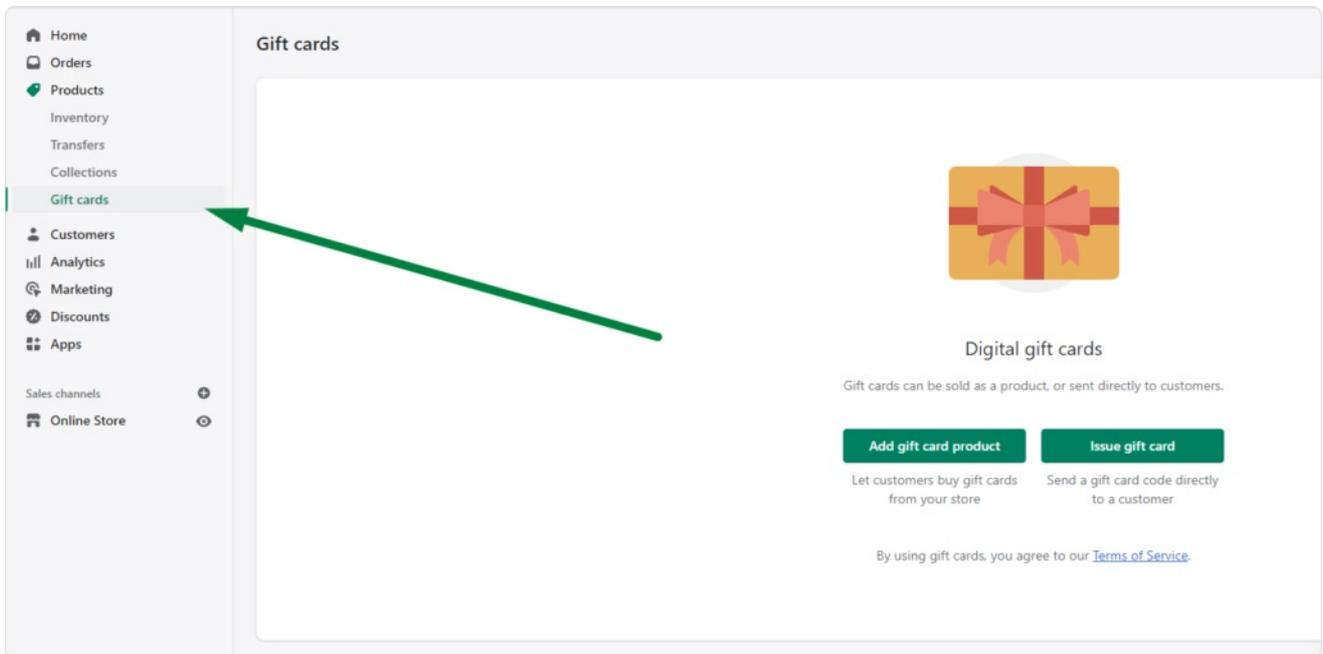

When someone adds a product to their cart and starts the checkout process, they will be able to use the gift card to pay for that specific product.

How to create a Shopify gift card

There are two ways you can create gift cards: using Shopify's built-in functionality or an app.

Let's start with the built-in functionality and then move to some of the best apps.

step 1. Log into your Shopify store and go to **Products -> Gift cards**. Here you'll see two options; for now, simply click on the "Add gift card product."

Step 2. Complete the necessary product information. Chances are you have already added some products to your store, so this process should be pretty straightforward.

Make sure to give your product a descriptive name and description. An image would also work wonders.

Tags [Manage](#)

Online store

Step 3. Choose your denominations. Shopify creates four denominations by default (\$10, \$25, \$50, and \$100), but you can always add extra or remove some of them if you feel like it.

As a best practice, you should match your gift card denominations with the average price of your products. For example, say your products cost around \$30 each. In that case, you might want to add a \$60 denomination so people can gift two products simultaneously.

Theme template

Default product

Assign a template from your current theme to define how the product is displayed.

Gift card template suffix

gift_card

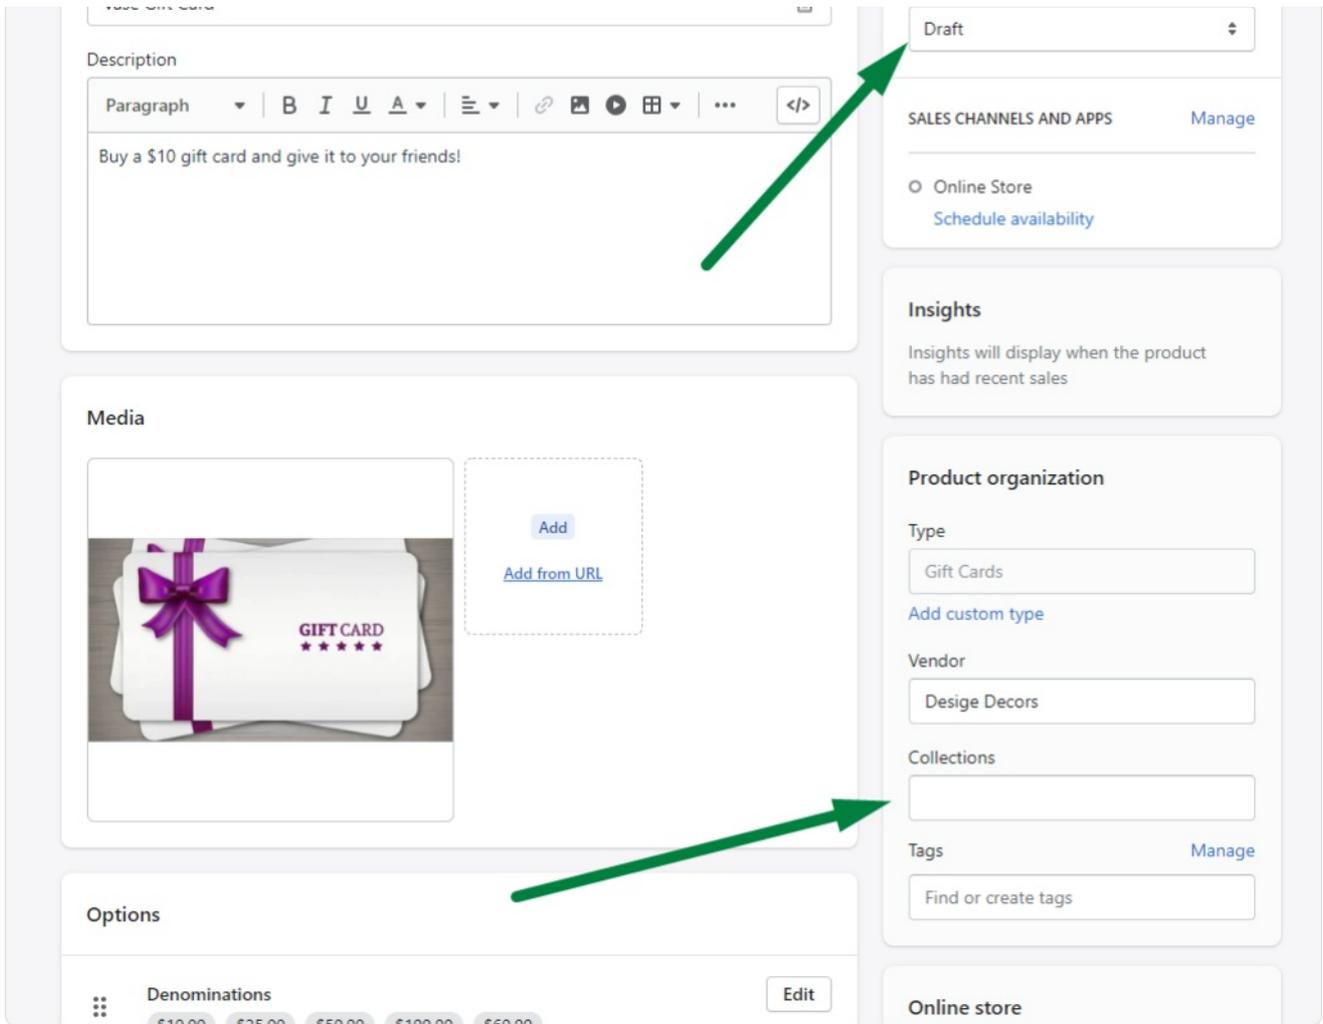

Customers receive an email with a URL to the gift card after purchase.

Step 4. Change the product status to “Active” and choose a collection. Once satisfied with the product details, it’s time to push it live.

Title

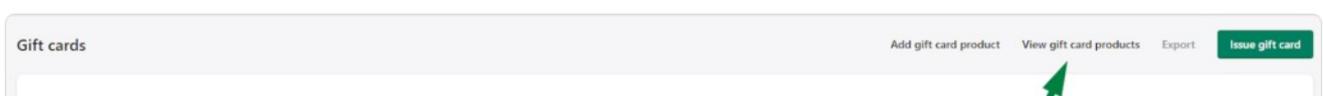

Vaca Gift Card

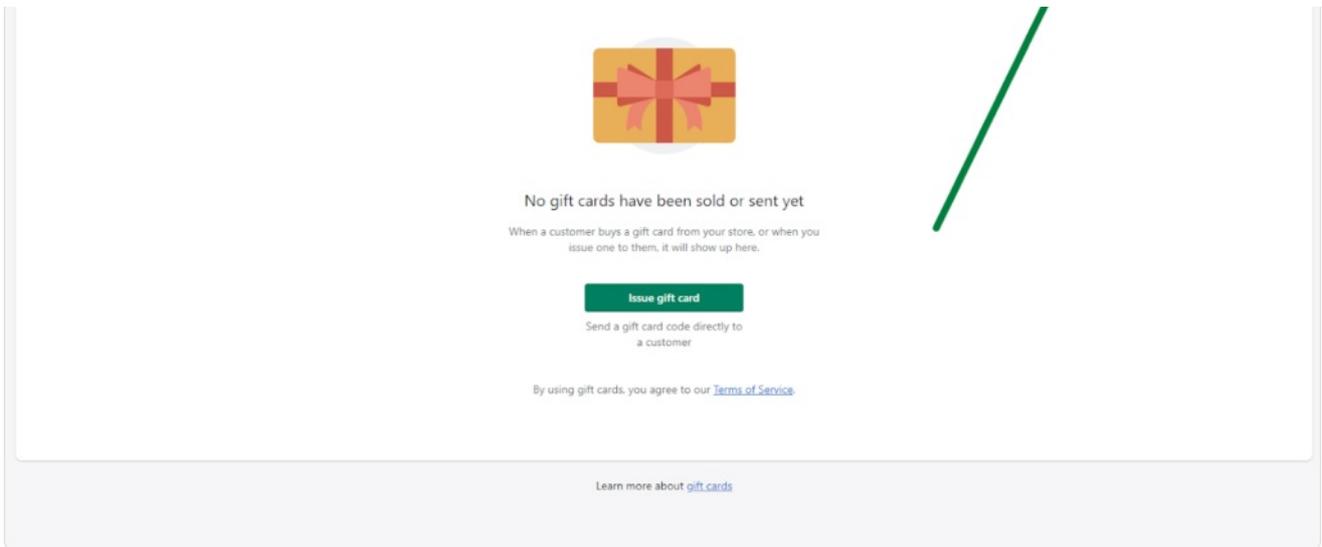

Product status

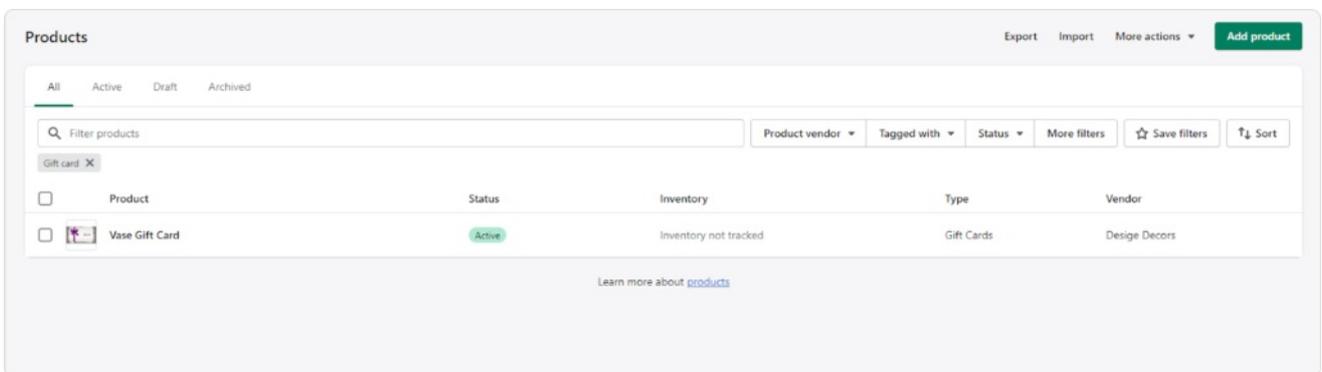

Step 5. Save your changes. Once you save your changes, you will be taken to your products page. If you want to create a new gift card or edit the one you just created, simply click on Gift cards (as you did in Step 1) and select “View gift card products.”

This will automatically filter your products, so you will only be able to see your Gift cards.

You can open the gift card editor by clicking on the corresponding gift card.

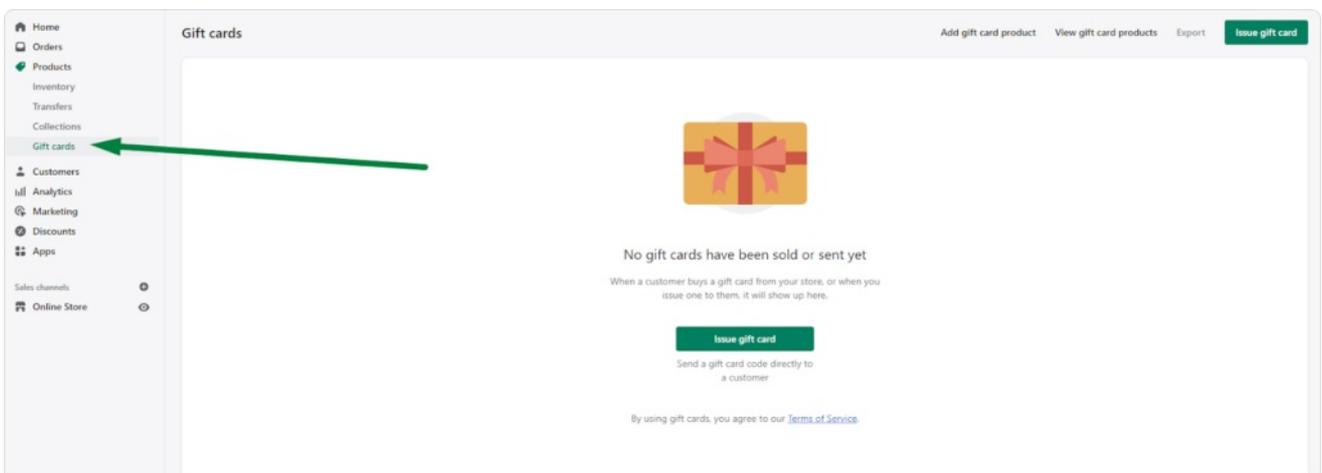

That's it. Now customers can purchase gift cards from your store.

How to issue single-use Shopify gift cards

This type of gift card is great if you want to thank loyal customers for purchasing from you multiple times. Your customers will appreciate a gift card more than a discount code.

Step 1. Navigate to the gift cards page.

Step 2. Click on the "Issue gift card" button. This will open up a page that will allow you to configure the gift card.

← Issue gift card

Gift card details

Gift card code

Initial value

Expiration date

Countries have different laws for gift card expiry dates. Check the laws for your country before changing this date.

No expiration date

Set expiration date

Find or create a customer

To send the gift card code, add a customer with an email address or phone number.

Notes

These notes are private and won't be shared with the customer.

Activate

Step 3. Configure the gift card. Now you can edit the Initial amount of the gift card, select which customer it applies to, set an expiration date, and even add a note so you remember why you created it.

! IMPORTANT

note: Make sure you copy this code right now, as you will not be able to see it again after you create the gift card.

Step 4. Select or create a customer and click "Activate." Once satisfied with your gift card options, you just need to select the customer you want to send it to and click on the "Activate" button.

Right after that, you will see this page featuring all relevant information regarding your newly issued gift card.

This is the last time you can copy that code, so make sure you do so in case you skipped it earlier.

TODAY

An email containing the gift card was sent to dan@chillital.com.

Just now

You issued a new gift card.

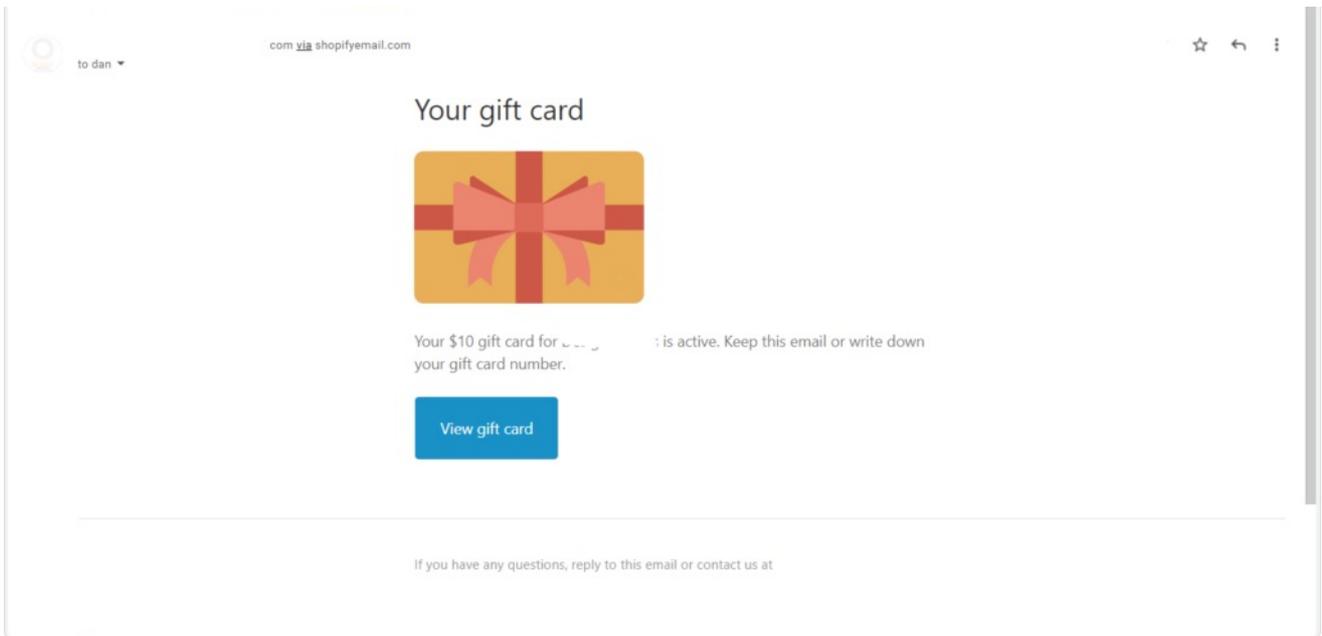

Just now

Disable

Save

That's it. Your customer will instantly get an email letting them know they have a gift card they can use in your store.

Depending on your store's theme, your customer will see something like this when they click on the "View gift card" button inside the email.

Here's your gift card!

Use this code at checkout to redeem your gift card, or [print](#) this page.

[START SHOPPING >](#)

Another essential thing to mention is that you do not need to add a customer when issuing a gift card. If you want to share the code via WhatsApp or Facebook Messenger, you can simply create the gift card, copy it, and share it. That simple.

Notice the QR code beneath the gift card code? You can create a QR code for your gift cards to easily share with your loyal customers when they make a return purchase or want to gift their friends.

Here's how.

How to Create QR codes for Shopify gift cards

The easiest way to create a gift card on Shopify is through the Shopcode App. And that's our first order of business.

Step 1. Install the Shopcode app

- Head to the [Shopcode app page](#) in the Shopify app store
- Select Add App. Note that you'll have to log in to your Shopify account before you can do this. If you're not already logged in, Shopify will prompt you to do so.

Shopcodes

Shopcodes

Create unique Shopcodes for your products.

Allow customers to scan codes and buy products using their phone.

Create Shopcode

Learn more about Shopcodes

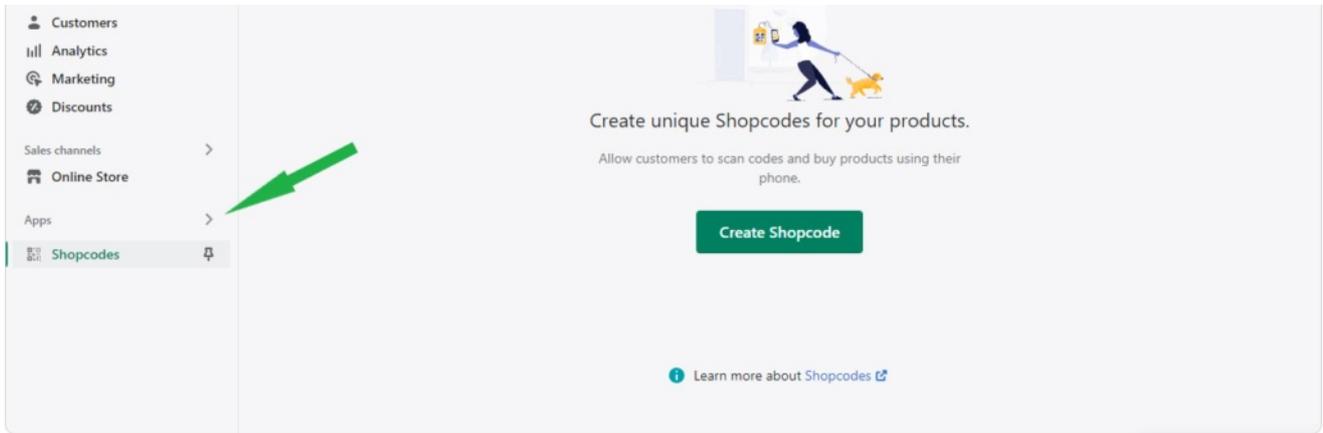

Now, you can begin creating your QR codes.

Step 2. Find the Apps column on the left-hand side of your Shopify window and select Shopcodes. You should be there already if you just installed the Shopcode app.

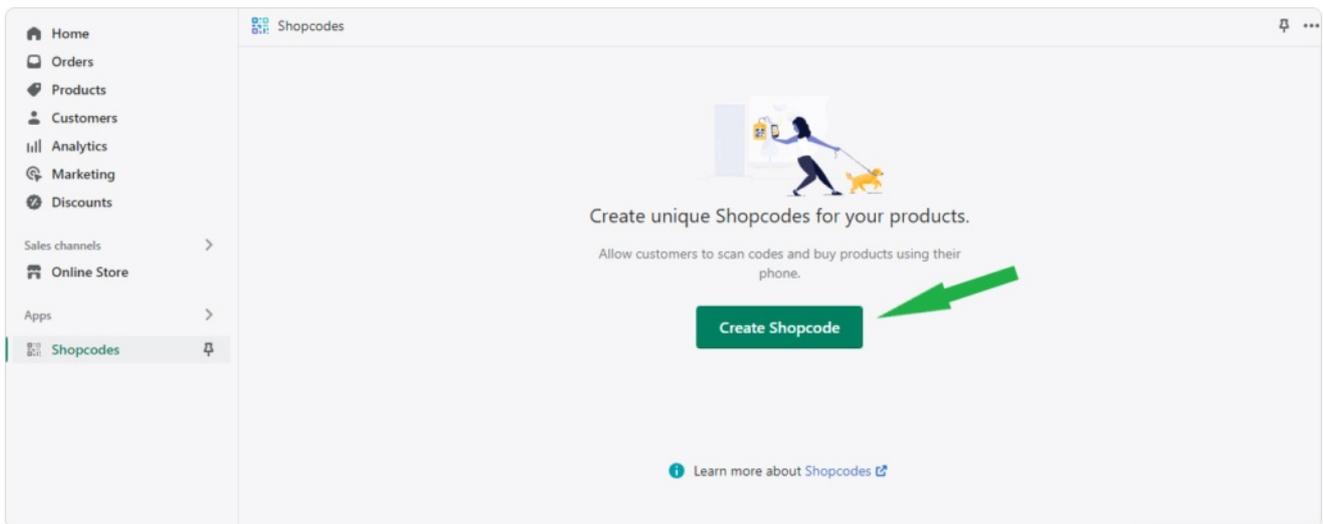

Home

Orders

Products

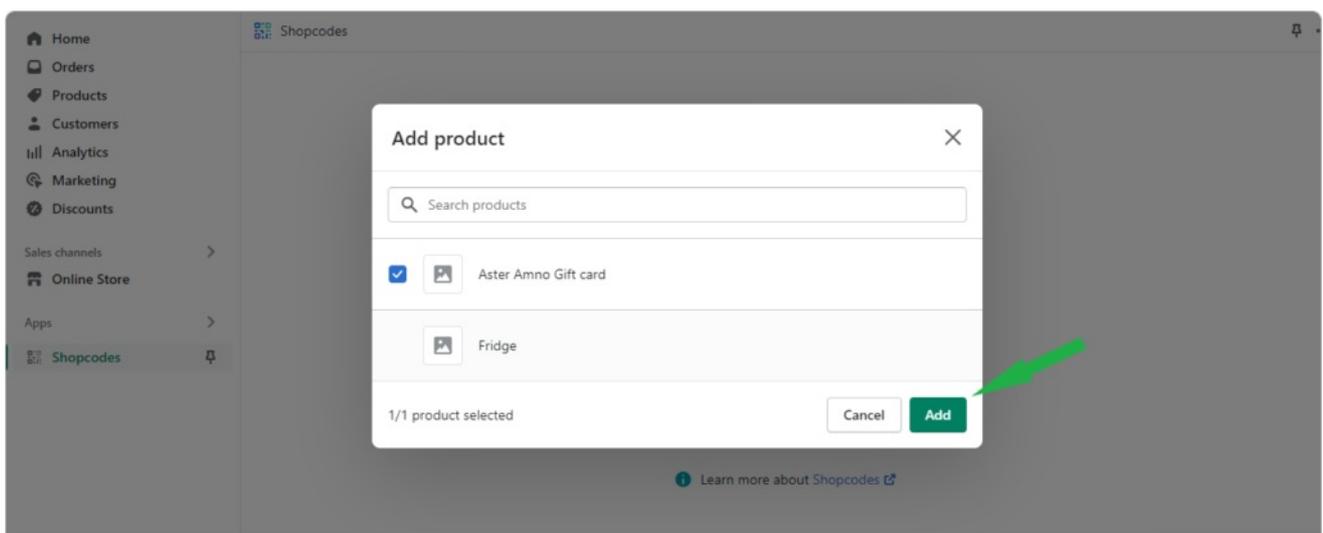

Step 3. Click on Create Shopcode.

You'll then be prompted to select the product you want to create the QR code for.

Step 4. Select the gift card in the list of products and click Add.

On the next page, you can work out the remaining kinks for your QR code.

Step 5. Enter the title of the QR code. The default name is usually the name of the product you choose, but if you want, you can change the name.

New Shopcode

Title

Only you and other staff can see this title.

Step 6. Choose the QR code scan destination. Where do you want to direct users when they scan your gift card QR code? You can direct them to the gift card product page or to your checkout page with the gift card in the cart.

New Shopcode

To apply a discount code, create one in [Discounts](#).

Shopcode

A preview of your Shopcode will show here after you finish creating it.

PNG for web use

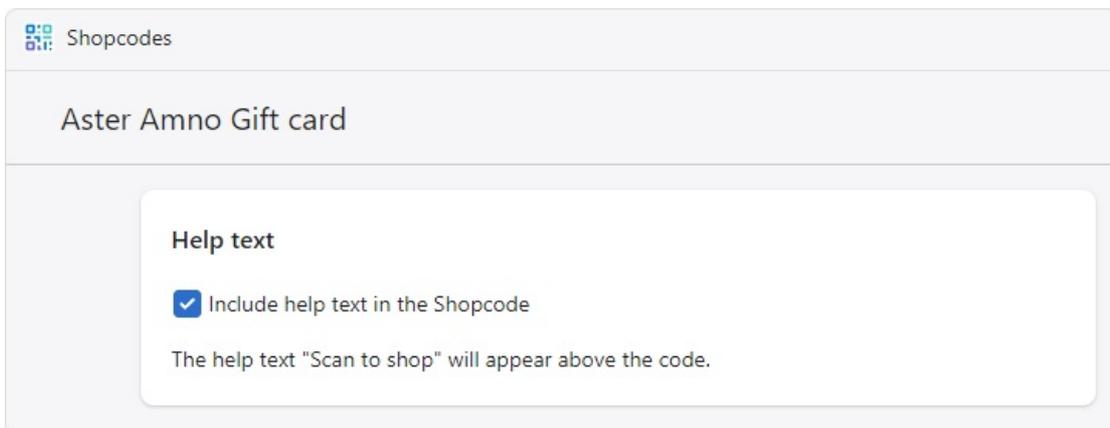

SVG for print use

[Download Shopcode](#)

Step 8. Download the Shopcode in the format you want: PNG or SVG. We recommend the PNG format if you'll be sharing the QR code online, but if you'll be printing these codes, your best option is SVG.

Pro tip: If you want to add any explanatory notes to your gift card QR code, check the **Help Text** box under the scan destination. Also, test out your QR code before issuing them out to customers. Your goal is to get repeat customers and more prospects, not to push away customers with bad-functioning QR codes.

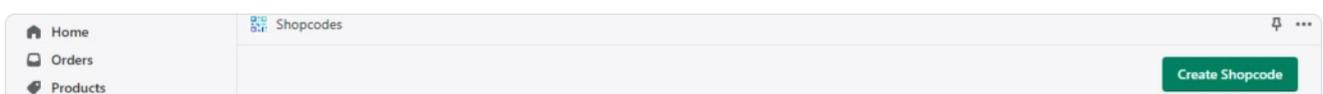

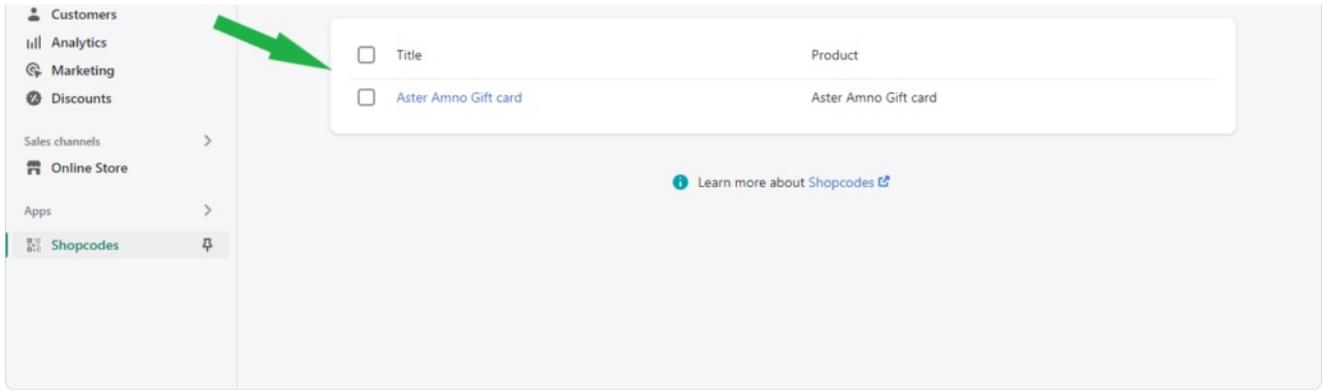

Now, that you have your QR codes out there, you'll want to know how many people are scanning them and how many of those scanners you're converting. Thankfully, you can do that right from the Shopcode app.

How to track QR code activity

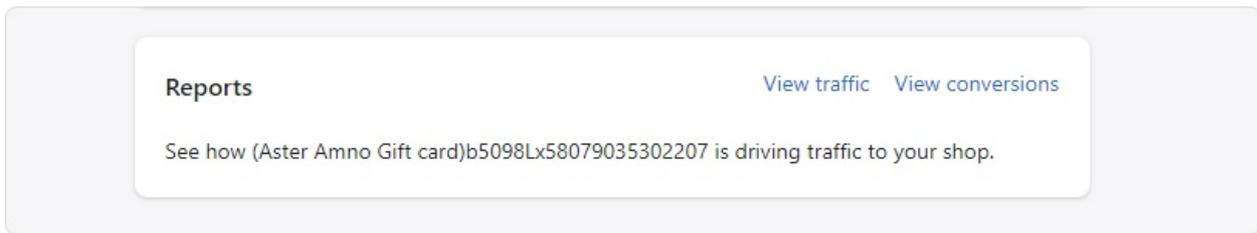

Step 1. Go to the Shopcode app as we saw above.

Step 2. Choose the code you want to track from your list of Shopcodes.

Step 3. Scroll to the Report section at the bottom of the page.

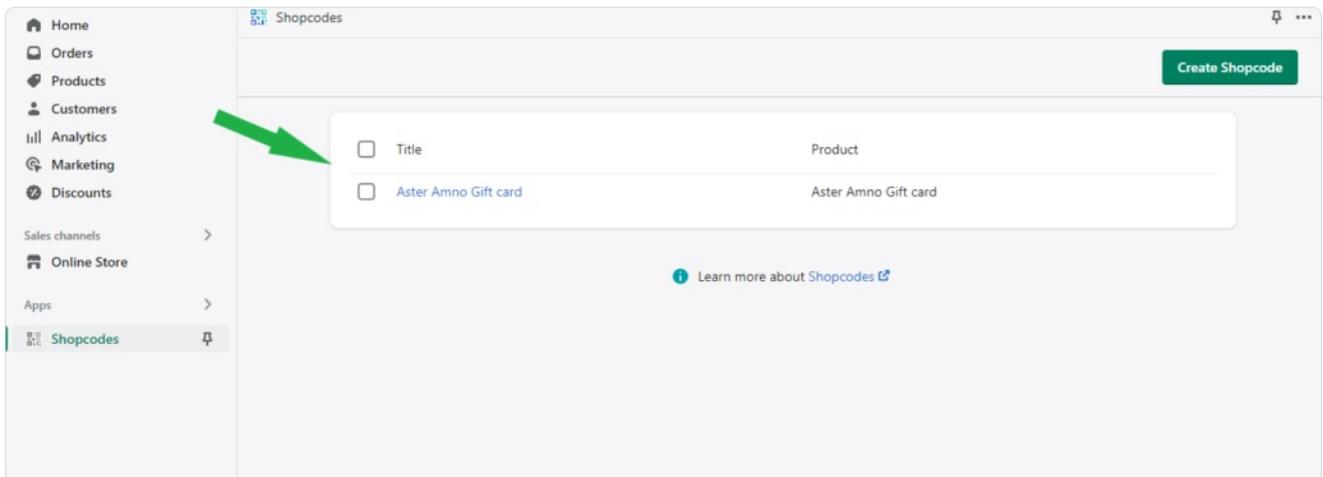

From here, you'll need to choose what exactly you're looking to track: traffic or conversion. You can then make informed decisions from there.

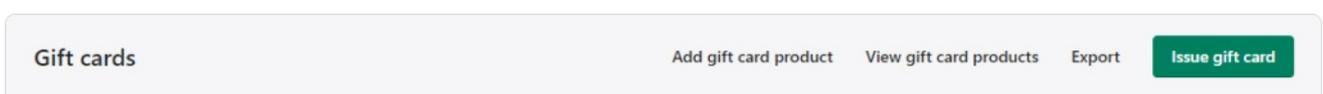

How to check Shopify gift card balance

As of today, Shopify gift card recipients **can't check the balance** of gift cards on their own. All they can do is ask you, the vendor, for that information. Here's how to find Shopify gift card balance for your customers:

Step 1. Enter the **Products** section in your admin panel and select **Gift cards**.

Step 2. Select the gift card code from the list of gift cards (the customer should have this code).

All Redeemable Full Partial Empty Disabled							
Filter gift cards		Status ▾	Balance ▾	Gift card value ▾	More filters	★ Saved	↑↓ Sort
Code	Status	Customer	Date issued	Remaining / Value			
<input type="checkbox"/> Code ending ypv3	Enabled	No customer	7 Dec 2022	€10.00 / €10.00			

[Learn more about gift cards](#)

Step 3. Once you find the gift card, click on the name. You can then find the gift card balance and other information, like the expiration date, in the next window.

←
..... ypv3

Gift Card Details

Current Balance

€10.00 / €10.00 GHS

Order	Gift card product	Expiration date
—	—	7 Dec 2027

Timeline
 Show comments

Send this info back to your customer, and you're good to go.

Alternatively, you can issue an updated gift card to the customer, especially if they've lost the gift card information they have. To do this, select the gift card code in the gift card list and click **Resend gift card**.

The customer would receive the gift card with updated information if they had partially used it.
